IRRICATION DEPARTMENT.

NOTIFICATIONS.

No. 2-I.—16th January 1933.—In supersession of notification No. 178, dated the 22nd August 1898 (published at pages 909-911, Part I of the Calcutta Gazette of the 24th August 1898), as amended by subsequent notifications, the following draft of rules and schedule of rates, which, in exercise of the power conferred by sections 78 and 99 of the Bengal Irrigation Act, 1876 (Bengal Act III of 1876), the Governor in Council intends to make, for the supply of water from the combined Damodar and Eden Canal (to be called the Damodar Canal), is hereby published for the information of the persons likely to be affected thereby.

affected thereby.

2. The draft will be taken into consideration on or after the 20th February 1933 and any objections or suggestions received by the under-

signed before that date will be duly considered: -

Draft rules and schedule of rates.

1. Lease for a term of years.—The country served by the Damodar and Eden Canals (hereafter called the Damodar Canal) shall be mapped out into blocks of convenient size in accordance with the features of the ground, natural or artificial. So far as may be practicable, the blocks shall be separated by drainage lines. This shall be done by the Subdivisional Canal Officers under the guidance and control of the Divisional Canal Officer.

2. Each block formed under rule I shall be numbered and recorded with its gross and irrigable areas in registers to be maintained by the Subdivisional Canal Officers. The blocks shall also be marked on maps

to be maintained by such officers.

- 3. Leases for not more than seven years may be granted for the whole irrigable area of a block or for a definite part of a block under the following conditions:—
 - I. Ordinarily the whole irrigable area of any village so far as situated within the block must be included in the lease. If the lands of a village within the block are divisible into two or more distinct parts which can be irrigated independently, a separate lease may be granted for each part.
 - II. All leases within one block shall be so granted that they shall expire on the same date.
 - III. No lease shall be granted when the supply of water must of necessity be delivered across an unleased area, except where a channel exists, which, in the opinion of the Subdivisional Canal Officer, will deliver water without waste across the unleased area.

4. The Chief Engineer shall fix from time to time the gross area for which, and the limits of the canal within which, leases for a term

of years may be granted.

5. Maps of all villages in which leases have been taken for a term of years, or in which there is any prospect of such leases being taken, shall be kept in the Subdivisional Canal offices. These maps shall be drawn to a scale 32" = 1 mile when such are available, and elsewhere to a scale 16" = 1 mile.

- 6. Applications for long leases for the irrigation of any crop between the 15th June and the 31st March must be filed by the 1st of September, after which applications for long leases will not be received. The preliminary application for a new lease for a term of years, or for the renewal of such lease, shall be made in writing but may be of an informal nature. It may be presented and shall be received either at the Subdivisional of Sectional Canal office; in the latter case the Sectional Officer shall forward it immediately to the Subdivisional Canal Officer, as soon as he has, by personal enquiry or by an enquiry made by the Sectional Officer, satisfied himself that the land in question constitutes a definite block or a definite part of a block and that it can be irrigated, shall at once inform the Divisional Canal Officer giving such particulars as that officer may direct, and shall ask his formal approval to the lease being proceeded with. On receipt of such approval the Subdivisional Canal Officer shall forward the preliminary application to the Ziladar, in order that the detailed assessment may be taken in hand. The lands in respect of which the lease is to be granted shall be indicated on a copy of the map referred to in rule 5.
- 7. The Zilladar on receipt of the application shall prepare the detailed assessment paper (khasra) of the land with the aid of the district settlement map, the record-of-rights and the plot index if available. If there is no settlement map of the area, an amin shall make a sketch map and a khasra and shall measure the areas of the plots with a chain or measuring rod.
- 8. When the khasra is prepared the Zilladar shall forward it to the Subdivisional Canal Officer for approval.
- 9. As soon as the khasra has been approved by the Subdivisional Canal Officer, he shall return it to the Zilladar endorsed with his signature in token of approval.

in token of approval.

The Zilladar shall then prepare a khatian or abstract of the khasra; and shall have the form of application, given in Appendix No. I to these rules, filled up and signed or marked by each of the applicants, in the presence of two witnesses.

When the application has been duly signed, the Zilladar shall send it to the Deputy Collector or other officer in charge of the revenue division hereafter called the Revenue Officer who after scrutiny will send it to the Divisional Canal Officer, by whom the permit or formal approval of the lease shall be signed, and issued in the form given as Appendix No. III to these rules. The permit shall be made over to the representative of the cultivators by the Subdivisional Canal Officer by means of his Sectional Officer. The Divisional Canal Officer shall return the application to the Revenue Officer, with a copy of the permit for record.

10. If the cultivators of any block, with regard to which an application for a lease is being proposed, are not unanimous, and if some of them decline to sign the application the Zilladar shall report the matter to the Subdivisional Canal Officer. This officer shall hold a local enquiry, recording the statements of the persons who decline to sign and recording his personal opinion on the reasons given. He shall then send a report to the Divisional Canal Officer, who shall decide whether the lease may be accepted excluding the fields in the occupation of the persons who decline to sign, or whether the lease shall be declined. The Divisional Canal Officer is authorised to grant a lease when not less than 95 per cent. of the holders of the net irrigable area of the block have

signed the application. In particular cases should it be desirable to grant a lease even though an area larger than 5 per cent. of the block has not been signed for, this may be done on the written order of the Superintending Engineer. The reason for granting the lease shall be fully recorded.

11. Covering leases.—Applicants for a lease for a term of years who may require water before the lease has been concluded can obtain a supply on tendering an application for a covering lease in the form given in Appendix No. II to these rules. This application shall be signed in the presence of the Zilladar or some other responsible officer nominated for the purpose by the Subdivisional Canal Officer. The signatures of the leading cultivators in the block in question shall be obtained and they shall represent holders of not less than 75 per cent. of the irrigable land within the block.

As soon as the Subdivisional Canal Officer receives the application duly signed, he shall issue a permit in the form given in Appendix No. IV to these rules, and shall at once supply water.

12. Kharif season leases.—If a lease for which an application has been filed for a term of years is not concluded for any reasons and water has been supplied under a covering permit, the lease shall be treated as a kharif season lease and water rates charged in a cordance with item 2 of the schedule of rates.

Kharif season leases may be granted within the areas set apart for long leases but holders of kharif season leases will not be entitled to water until the demands of the long-leased area have been met or there is surplus water. The rates to be paid will be in accordance with item 2 of the schedule of rates. These leases will expire on the 31st of October each year. Applications for kharif season leases may be presented to the Subdivisional Canal Officer or to the Sectional Officer. They must be in the form given in Appendix V to these rules. The permit for the supply of water in the form given in Appendix VI to these rules will be granted by the Subdivisional Canal Officer.

13. Single watering leases.—Applications for a single watering during the kharif season, may be entertained if water is available, after meeting the demand for the areas leased for a term of years. The applications may be presented at the Subdivisional Canal office or to the Sectional Officer. They must be in the form given in Appendix No. VII to these rules.

The application must be for a definite block and the signatures of the applicants must cover areas aggregating not less than four-fifths of the irrigable lands in the block.

If the Subdivisional Officer is able to supply water and accepts the application he will require the applicants to pay in advance one-half of the amount due on the areas entered in the application at the rate specified in the schedule of rates, and on this sum being paid he will at once issue a permit in the form given in Appendix No. VIII to these rules and will supply water. When the watering has been concluded the area actually irrigated shall be determined and the assessment shall be made on the areas actually watered within the limits of the block specified in the application and permit.

14. Rabi season leases.—Applications for water to irrigate spring rice or other crops excluding sugarcane between November and March inclusive, may be presented at the Subdivisional Canal office or to the

Sectional Officer. They must be in the form given in Appendix No. IX to these rules.

.In the applications the areas for which water is required must be specified but the rate will be charged on those areas for which water is actually used as determined by measurement.

The permit in the form given in Appendix X to these rules will be granted by the Subdivisional Canal Officer if he is able to supply the water.

15. Sugarcane season leases.—Applications for water to irrigate sugarcane between the 1st November and the 31st March inclusive may be presented to the Subdivisional Canal Officer or to the Sectional Officer. They must be in the form given in Appendix XI to these rules.

In the applications the areas for which water is required must be specified but the rate will be charged on these areas for which water is actually used as determined by measurement. The permit in the form given in Appendix XII to these rules will be granted by the Subdivisional Canal Officer if he is able to supply the water.

- 16. Single waterings in the hot weather.—If water is available in the hot weather months it will be supplied in single waterings for the irrigation of any crop between 1st April and 14th June on the receipt of applications in form given in Appendix XIII to these rules: the Subdivisional Canal Officer will issue the permit in the form given in Appendix XIV to these rules.
- 17. Supply of water.—The Divisional Canal Officer shall control the supply of water throughout the division in his charge.
- No water shall be supplied to any lands except such as have been brought under a lease for a term of years or for the season, or to such as are provided for by a covering lease or by a lease for a single watering.
- 18. Under the forms of Irrigation lease in use, no specific supply of water is promised: but the undertaking is to give such a supply to each lessee as may be necessary for the lands leased. The supply shall be given, as may be required for the proper cultivation of the crops under irrigation, according to the exigencies of the season.
- 19. The Divisional Canal Officer will give the required supply by rotation in accordance with the sanctioned tatil table and map where such exists. He is required to give the lessees written notice informing them of the periods when they will be supplied with water. No alteration is permitted in the table of rotation without the written sanction of the Superintending Engineer.
- 20. Collection of water-rates.—The rates due for water supplied shall be collected by the Revenue Officer through his staff of Zilladars, Tahsildars and peons. All khatians or demand statements shall be signed by the Revenue Officer after scrutiny in his office.
- 21. At the time of preparation of the khatian in the Zilladar's office, each person assessed shall be furnished with an extract from the assessment paper, showing the particulars of the charge against him. This extract shall be furnished in such form as may from time to time be approved for the purpose.
- 22. Each person on paying the sum due from him shall be given a receipt in the form prescribed for the purpose.

- 23. For the purposes of account, control over establishment and general administration, the Revenue Officer is in the position of an Executive Engineer in charge of a division, and is directly subordinate to the Superintending Engineer. In regard to any proceedings taken under the Bengal Public Demands Recovery Act, 1913, the Revenue Officer is subject to the control of the Collector of the district.
- 24. Unauthorised use of water and waste of water.—If it is necessary to take action under the provisions of sections 79 and 80 of the Act, proceedings shall be instituted only under the direct and special order of the Divisional Canal Officer. The primary record of the facts regarding the unauthorised use or the waste of water shall be made by the Subdivisional Canal Officer and his subordinates. The parties whom it is proposed to assess shall be informed in writing, and shall be called on to show cause why they should not be assessed. The record of their statements shall be made by the Divisional or by the Subdivisional Canal Officer. The Divisional Canal Officer shall consider the facts and statements recorded, and shall, in deciding the case, give his reasons for or against the assessment, both as regards the facts and as regards the law; and he shall determine the rate to be charged in accordance with the provision in the schedule of rates attached to these rules.
- 25. Should the Divisional Canal Officer decide on making an assessment, he shall have the assessment papers prepared by the Subdivisional Canal Officer and his staff. Each person assessed shall be furnished with a statement of the charge against him, and an abstract of the demand or khatian shall be sent to the Revenue Officer, who shall proceed to recover the sums assessed. The period of one month within which an appeal may be presented to the Collector under section 91 of the Bengal Irrigation Act, 1876 (hereinafter referred to as the Act) shall count from the date on which the order of the Divisional Canal Officer is received by the person assessed, which date shall be endorsed on the order.
- 26. No proceedings shall be instituted if the unauthorised use or the waste of water have occurred through the act or neglect of a Canal Officer or a subordinate employed on the canal.
- 27. Complaints and applications.—All complaints or applications with respect to the supply of water, defective drainage, and generally all matters relating to the administration of the canals, shall be received on presentation at either the Divisional or Subdivisional Canal offices. Complaints and applications received by a Divisional Canal Officer may be transferred to his Subdivisional Canal Officers for disposal at

his discretion.

Any such complaints or applications, if presented to the Revenue Officer or to his staff, shall be returned endorsed with instructions as to the proper office at which to present them. If received by post, they shall be at once forwarded to the Divisional or Subdivisional Canal Officer.

- 28. Complaints or applications with respect to corrections of the assessment, the actions of the amins in assessing and the actions of the Tahsildars and other staff employed in collection shall be received at the office of the Revenue Officer, or at the Zilladars' offices.
- 29. Receipts in the prescribed form shall be given at all offices for complaints or applications presented. The receipt of all complaints and applications shall be recorded in registers to be kept for that purpose.

- 30. The officer receiving the complaint or application shall either make a personal enquiry into the matter or he shall nominate in writing some responsible person to hold the enquiry.
- 31. The orders passed on all complaints or applications shall be in writing, and a copy of every order shall be furnished to the complainant or applicant.

The copy of an order may be sent by registered post if this is convouient.

The period within which an appeal may be presented under section 91 of the Act shall be reckoned from the date on which the copy of the

order is received by the person.

32. When an appeal to the Collector is from the order of a Subdivisional Canal Officer, the records of the proceedings shall be obtained through the Divisional Canal Officer, who may endorse such remarks as he may think desirable, provided that he does not thereby detain the proceedings.

- In all cases in which an appeal against an assessment is preferred to the Collector, he may, if he thinks fit, direct that the collection of water-tates be suspended till the appeal is disposed of.

 33. The Divisional Canal Officer is empowered to revise the proceedings of his Subdivisional Canal Officers, and the Superintending Engineer is empowered to call for and to revise the proceedings of all Engineer is empowered to call for and to revise the proceedings of all officers under his control.
- Remissions and alterations of demands.—Whenever the crop on any land entitled to a supply of water suffers material injury from an insufficient supply of water, or from any interruption in the supply of water, remission of the rate due on such crop shall be given by the Divisional Canal Officer, provided that the person claiming such remission shall have applied for it not less than 15 days before the reaping of the crop.

35. On the occasion of lands being brought under a lease for a term of years, the Divisional Canal Officer is empowered to remit the rates for the first season on those fields which from the nature of the cultivation then obtaining, or from other causes, have not in that season

derived any benefit from the supply of canal water.

36. Should the crop on lands under lease for a term of years suffer material injury from excess of water due to deficient drainage, the Divimaterial injury from excess of water due to dencient drainage, the Divisional Canal Officer may grant remission of the rates due on such lands in whole or in part, provided that the person asking for remission shall have applied at least 15 days before the reaping of the crop.

37. Revisions of the assessment required in consequence of land under lease being left uncultivated or of land being appropriated for purposes other than cultivation shall be made under the orders of Divisional Canal Officer.

Divisional Canal Officer.

38. Revision of the assessment required in consequence of incorrect entries of the names of occupants of lands under lease or of incorrect entries of areas or amounts in the assessment papers, or required by changes in the occupation of lands shall be made under the orders of the Revenue Officer, provided that no change involving any increase or decrease in the total area under lease for a term of years shall be made without the concurrence of the Divisional Canal Officer.

39. Remissions of water-rates on account of injury to the crops caused by inundation, blight, storms or any extraordinary cause or for any other reason will only be allowed under the special orders of the

Local Government.

- 40. Irrecoverable demands.—The Superintending Engineer is empowered to sanction the writing-off of those demands which are reported, after due enquiry by the Revenue Officer, as irrecoverable owing to the poverty of the defaulter or his successors in case of his death, or owing to the defaulter having absconded.
- 41. Cultivators' representatives.—Whenever the preliminary application for a lease for a term of years has been approved by the Divisional Canal Officer, the Revenue Officer shall, with the concurrence of the Subdivisional Canal Officer, select as representative of the cultivators a suitable person or persons who shall generally be acceptable to the cultivators and who shall each have a direct interest in the land for which the lease is executed.
- 42. The person or persons so selected shall be required to give assistance to the Canal Officers in respect of the following matters:—
 - (i) In the preparation of the applications for leases.
 - (ii) In the measurement of the irrigated lands.
 - (iii) In recording the names of the occupiers of the holdings.
 - (iv) In receiving demand statements and distributing to the cultivators the individual notices of assessment.
 - (v) In attending, when required, at enquiries into complaints.
 - (vi) In reporting to the Zilladars any changes in the occupancy of lands under lease.
 - (vii) In assisting the Tahsildar in collecting rates.
- 43. For such assistance the cultivators' representative or representatives shall be entitled to free irrigation of the lands in his or in their own occupation, which may lie within the boundaries of the leased area subject to a total limit of 3 per cent. of the area assessed. The Revenue Officer may disallow in whole or in part this free irrigation, and may recover the rates which would otherwise have been payable in whole or in part if the assistance specified in rule 42 has not been efficiently rendered. The reasons for such disallowance shall be recorded in writing.
- 44. The Revenue Officer shall maintain in his office a register containing a record of the names of all representatives and of the areas of free irrigation allowed to each.
- 45. Applicants for single waterings for season leases shall be required to nominate one of their number who must have a substantial interest in the land to be irrigated as their representative. The representative so nominated shall perform the same duties as stated in rule 42, and shall receive remuneration on the same scale as in rule 43.
- 46. Power to decline or cancel leases.—Should it be proved, after due enquiry, that the supply of water given to any leased area is habitually wasted or used for the irrigation of lauds not under lease, it shall be competent for the Superintending Engineer to direct that the lease shall be cancelled with effect from the 1st of June next following. The order to cancel a lease shall be passed before the 1st of April of the year in which it is to take effect.
- 47. The Superintending Engineer may give directions to the Divisional Canal Officer to decline applications for irrigation leases of lands in villages where there has been persistent difficulty in realizing the water-rates, until all arrears have been paid.

He may further suspend, or altogether cancel, any leases for a term of years, if on the 1st June of any year, water-rates to the extent of half the demand for one year are in arrears. Previous notice of intention to put this rule in force shall be given not later than the 15th April preceding.

- 48. Tanks may be filled with canal water without charge, wherever water can be made available without injury to the cultivation dependent on a canal under the following conditions:—
 - I. No tank shall be filled unless the water is to be used exclusively for domestic purposes or for watering cattle.
 - II. No tank shall be filled from which irrigation is practised.
 - III. No tank shall be filled which intercepts any line of drainage or is liable to overflow from the accumulation of water from natural causes.
 - IV. No tank shall be filled except on the written order of the Subdivisional Canal Officer issued on the written application
 of the persons concerned.
 - V. No tank shall be filled unless the channel used to convey water to it shall be shown to the satisfaction of the Subdivisional Canal Officer to be in a sound condition when the application is made.
 - VI. The privilege here accorded may, by the written order of the Subdivisional Canal Officer, be suspended for twelve months for the breach of any of the above rules.
- 49. Except when a public right of way exists, no person shall, without the permission expressed in writing of the Divisional or Subdivisional Canal Officer, pass himself or cause any animal or vehicle to pass, on or across any of the works, banks or channels of a canal or drainage work which is part of the canal system except by means of such bridges, fords and ferries as may have been provided for the purpose.

Any person who, after due warning, commits a breach of this rule may be proceeded against under section 93, clause (9) of the Act.

- 50. The use of any part of the banks or berms of any canal, drainage work which is part of the canal system, or flood embankment which is subject to the provisions of the Act, as a place for relieving the calls of nature is prohibited. Any person who after due warning commits a breach of this rule may be proceeded against under section 93, clause (9) of the Act.
- .51. When tanks which are used both for irrigation and domestic purposes are filled with canal water, a charge at the rate of rupee one will be made for each 10,000 cubic feet or part of 10,000 cubic feet of water supplied.

The Divisional Canal Officer may supply water for manufacturing or other purposes and charge for the same at the rate of Rs. 2 for each 10,000 cubic feet or part of 10,000 cubic feet of water supplied. The same charge will be made if water is taken into a tank without authority or used in an unauthorised manner.

52. No officer employed on the canals, unless especially exempted by the Governor in Council from the operation of this rule, shall have any interest in the distribution of water from any of the canals or purchase or bid for any Government property sold thereon either in his own name or in the name of another, or jointly, or in shares with others.

DISTRICT REPORTS ON WEATHER AND GROPS.

For the week ending on the 25th January 1933.

Summary.—During the week the rainfall was almost general throughout the Presidency. It has facilitated field operations for autumn crops generally. Cutting and pressing of sugarcane continue under favourable conditions. The standing crops are growing well. The average price of common rice for the province has fallen by about 1.75 per cent. as compared with that of the previous week:—

Rules.

- 1. The following rule regulates the use of arms against any detenu or body of detenus ordered to reside in the new Berhampore Camp:—
- (1) Any police officer or constable may use a sword, hayonet, fire-arm or any other weapon against any such detenu escaping or attempting to escape: provided that resort shall not be had to the use of any such weapon unless such officer or constable has reasonable ground to believe that he cannot otherwise prevent the escape.

- (2) Any police officer or constable may use a sword, bayonet, fire-arm or any other weapon on any such detenu engaged in any combined outbreak, or in any attempt to force or break open any gate, wire fencing or enclosing wall of the Camp and may continue to use such weapon so long as such combined outbreak or attempt is being actually prosecuted.
- (3) Any police officer or constable may use a sword, bayonet, fire-arm or any other weapon against any such detenu using violence to any officer of the Camp or other person: provided that such officer has reasonable grounds to believe that the officer of the Camp or other person is in danger of life or limb, or that other grievous hurt is likely to be caused to him.
- (4) Before using fire-arms against a detenuunder the authority contained in rule (1) the police officer or constable shall give warning to the detenu that he is about to fire on him.
- (5) No police officer or constable shall use arms of any sort against a detenu in the case of an outbreak or attempt to escape without the orders of a superior officer when such superior officer is achally present and can be consulted.
- II. A determ in the new Berhampore Camp is also subject to the following rules:-
- (1) He shall reside in the accommodation allotted to him by the Commandant, Berhampore Camp, and within the limits of the new Camp. He may proceed beyond those limits only with the permission of the Commandant given by a general or special order in this behalf.
- (2) He shall conform to and obey the orders of the Commandant of the Camp issued from time to time for the comfort, safety, health and orderly conduct of the Camp and all persons residing within it.
- (3) He shall attend roll call and answer his name in person at such times and places within the Camp as may be appointed by the Commandant.
- (4) (a) He must be clean and properly dressed during the day, must stand up when any inspecting afficer or authorised visitor visits his quarters, must answer any question put to him by such officers or visitors in the discharge of their duties, and otherwise treat them with respect.

NOTIFICATION.

No. 8-Mnc.—7th February 1933.—The following amendments, made by the Government of Bengal in the instructions relating to the grant of permits enabling engineers and engine-drivers holding ordinary (steam) certificates of competency to act in the corresponding capacity on inland motor vessels, published under this department notification No. 45-Mnc., dated the 1st November 1930, are published for general information:—

Amendments.

In the said notification, for the paragraph beginning with the words "In order to avoid inconvenience to owners in providing qualified engineers and engine-drivers, etc.," and ending with the words "be issued in respect of individual ships only" substitute the following paragraphs, viz.—

In order to avoid inconvenience to owners in providing qualified engineers and engine-drivers and to provide facilities to enable such persons to perform the necessary qualifying service, the Government of Bengul are prepared to consider applications for the granting of temporary permits enabling engineers and engine-drivers who hold ordinary certificates of competency to act in the appropriate grade on inland motor vessels.

A permit to take charge of the engines of an inland motor vessel up to a maximum of 360 B.H.P. will be issued under the following conditions:—

A person who has served at sea or on inland waters for a period of three years as driver in charge of the engines of a motor vessel of not less than 60 B.H.P. followed by a further period of two years in charge of the engines of a motor vessel of not less than 85 B.H.P.; or

Has served at sea or an inland waters for a period of two years as second driver of a motor vessel having engines of not less than 180 B.H.P. whilst holding a certificate of competency as second class driver of an inland motor vessel, during which period he must have been in charge of a watch for eight hours per day; or

Has served at sea or on inland waters for a period of five years as driver in charge of the engines of a motor vessel of not less than 70 B.H.P.

Will, on undergoing an examination to the satisfaction of the Principal Engineer and Ship Surveyor, be granted a permit to take charge of the engines of an inland motor vessel up to a maximum of 360 B.H.P. in order to enable him to acquire the requisite qualifying service for a first class motor driver's certificate of competency under paragraph 26 of the rules.

A permit so granted will be valid for a period of eighteen months only and will not be renewable.

The issue of temporary permits will also in certain cases be extended to engine-drivers who have been in possession of permits as drivers of small launches of 40 brake horse-power or under for two years or more.

The issue of permits will be subject to compliance with the following conditions, and they will be issued in respect of individual ships only.

CALCUTTA, THE 6TH FEBRUARY 1933.

RESOLUTION-No. 631Agri.

Minister-in-charge: The Hon'ble Nawab K. G. M. Faroqui, Khan Bahadur.

At the meeting of the Bengal Legislative Council held on the 1st February 1932 a resolution was passed to the following effect:—

"This Conneil recommends to the Government that a Committee consisting of official and non-official members of the Council and experts be appointed to make a systematic examination of the present economic depression in Bengal and to make suggestions as to what temporary and permanent measures may be taken to alleviate the present distress and ensure a steady economic progress of the people of the Presidency."

The Government of Bengal (Ministry of Agriculture) have carefully considered the resolution, and while they are prepared to accept the recommendation of the Council for the appointment of a Committee, they are of opinion that the appointment of such a Committee to conduct a roving enquiry of the nature contemplated in the resolution, viz., "to make a systematic examination of the present economic depression in Bengal," would serve no useful purpose. They believe, however, that apart from other general factors which have affected almost every country of the world, the fall in the price of raw and manufactured jute is one of the primary factors responsible for the acute economic depression in Bengal. They are, therefore, pleased to appoint a Committee composed of the undermentioned gentlemen to investigate the jute problem as affecting the province:—

- (1) Mr. R. S. Finlow, C.I.E., Chairman.
- (2) Mr. J. T. Finlayson, representative of the Bengal Chamber of Commerce.
- (3) Mr. II. H. Burn, M.L.C., representative of the Indian Jute Mills' Association.
- (4) Mr. N. R. Sarker, representative of the Bengal National Chamber of Commerce,
- (5) Mr. D. P. Khaitan, representative of the Indian Chamber of Commerce.
- (6) Mr. Mirza Ahmed Ispahani, representative of the Muslim Chamber of Commerce.
- (7) Dr. Naresh Chandra Sen Gupta, M.L.C., Vice-President, Bengal Jute Growers' Association.
- (8) Khan Bahadur Muhammad Abdul Momin, M.L.C.
- (9) Khan Bahadur Maulvi Azizul Haque, M.L.C.
- (10) Dr. J. C. Sinha, Professor of Economics, Presidency College.
- (11) Director of Agriculture, Bengal (ex-officio).

- (12) Registrar of Co-operative Societies, Bengal (ex-officio).
- (13) Director of Industries, Bengal (ex-officio).

The Director of Industries will also act as Secretary to the Committee.

The terms of reference to the Committee will include consideration of the following:—

- (1) the question of regulation of the production of jute;
- (2) the marketing of jute including the establishment of regulated markets and the supply of market information in a suitable form to the producers;
- (3) the creation of a Jute Committee for the province of Bengal on the lines of the proposed Central Jute Committee and the minimum amount required to finance such a Committee;
- (4) the extent to which other materials have displaced jute and the likelihood of further substitutes being found in the near future; and
- (5) the possibilities of making any other economic use of jute to an extent that might relieve the present situation.

The Committee are requested to submit their report by 1st May 1933.

Ondered that the resolution be published in the Calcutta Gazette and copies thereof forwarded to the Chairman and Members of the Committee.

Ordered also that a copy of the resolution be forwarded to the Commerce Department of this Government, for information.

By order of the Government of Bengal (Ministry of Agriculture),

Irrigation.

NOTIFICATIONS.

.No. 2-I.—16th January 1933.—In supersession of notification No. 178, dated the 22nd August 1898 (published at pages 909-911, Part I of the Calcutta Gazette of the 24th August 1898), as amended by subsequent notifications, the following draft of rules and schedule of rates, which, in exercise of the power conferred by sections 78 and 99 of the Bengal Irrigation Act, 1876 (Bengal Act III of 1876), the Governor in Council intends to make, for the supply of water from the combined Damodar and Eden Canal (to be called the Damodar Canal), is berely published for the information of the persons likely to be is berely published for the information of the persons likely to be uffected thereby.

2. The draft will be taken into consideration on or after the 20th February 1933 and any objections or suggestions received by the undersigned before that date will be duly considered:-

Draft rules and schedule of rates.

1. Lease for a term of years.—The country served by the Damodar and Eden Canals (hereafter called the Damodar Canal) shull be mapped out into blocks of convenient size in accordance with the features of the ground, natural or artificial. So far as may be practicable, the blocks shall be separated by drainage lines. This shall be done by the Subdivisional Canal Officers under the

guidance and control of the Divisional Canal Officer.

2. Each block formed under rule I shall be numbered and recorded with its gross and irrigable areas in registers to be maintained by the Subdivisional Canal Officers. The blocks shall also be marked on maps

to be unintained by such officers.

Lenses for not more than seven years may be granted for the whole irrigable area of a block or for a definite part of a block under the following conditions:-

- I. Ordinarily the whole irrigable area of any village so far as situated within the block must be included in the lease. If the lands of a village within the block are divisible into two or more distinct parts which can be irrigated independently, a separate lease may be granted for each part.
- All leases within one block shall he so granted that they shall 11. expire on the same date.
- No lease shall be granted when the supply of water must of III. necessity be delivered across an unleased area, except where a channel exists, which, in the opinion of the Subdivisional Canal Officer, will deliver water without waste across the unleased area.

The Chief Engineer shall fix from time to time the gross area for which, and the limits of the canal within which, leases for a term

of years may be granted.

5. Maps of all villages in which leases have been taken for a term of years, or in which there is any prospect of such lenses being taken, shall be kept in the Subdivisional Canal offices. These maps shall be drawn to a scale 32" = 1 mile when such are available, and elsewhere to a scale 16" = 1 mile.

- 6. Applications for long leases for the irrigation of any crop between the 15th June and the 31st March must be filed by the 1st of September, after which applications for long leases will not be received. The preliminary application for a new lease for a term of years, or for the renewal of such lease, shall be made in writing but may be of an informal nature. It may be presented and shall be received either at the Subdivisional or Sectional Canal office; in the latter case the Sectional Officer shall forward it immediately to the Subdivisional Canal Officer. The Subdivisional Canal Officer, as soon as he has, by personal enquiry or by an enquiry made by the Sectional Officer, satisfied himself that the land in question constitutes a definite block or a definite part of a block and that it can be irrigated, shall at once inform the Divisional Canal Officer giving such particulars as that officer may direct, and shall ask his formal approval to the lease being proceeded with. On receipt of such approval the Subdivisional Canal Officer shall forward the preliminary application to the Zilladar, in order that the detailed assessment may be taken in hand. The lands in respect of which the lease is to be granted shall be indicated on a copy of the map referred to in rule 5.
- 7. The Zilladar on receipt of the application shall prepare the detailed assessment paper (khasra) of the land with the aid of the district settlement map, the record-of-rights and the plot index if available. If there is no settlement map of the area, an amin shall make a sketch map and a khasra and shall measure the areas of the plots with a chain or measuring rod.
- 8. When the khasra is prepared the Zilladar shall forward it to the Suhdivisional Canal Officer for approval.
- 9. As soon as the khasra has been approved by the Suldivisional Canal Officer, he shall return it to the Zilladar endorsed with his signature in token of approval.

The Zilladar shall then prepare u khatian or abstract of the khasra, and shall have the form of application, given in Appendix No. I to these rules, filled up and signed or marked by each of the applicants, in the presence of two witnesses.

When the application has been duly signed, the Zilladar shall send it to the Deputy Collector or other officer in charge of the revenue division hereafter called the Revenue Officer who after scrutiny will send it to the Divisional Canal Officer, by whom the permit or formal approval of the lease shall be signed and issued in the form given as Appendix No. III to these rules. The permit shall be made over to the representative of the cultivators by the Subdivisional Canal Officer by means of his Sectional Officer. The Divisional Canal Officer shall return the application to the Revenue Officer, with a copy of the permit for record.

10. If the cultivators of any block, with regard to which an application for a lease is being proposed, are not unanimous, and if some of them decline to sign the application the Zilladar shall report the matter to the Subdivisional Canal Officer. This officer shall hold a local enquiry, recording the statements of the persons who decline to sign and recording his personal opinion on the reasons given. He shall then send a report to the Divisional Canal Officer, who shall decide whether the lease may be accepted excluding the fields in the occupation of the persons who decline to sign, or whether the lease shall be declined. The Divisional Canal Officer is authorised to grant a lease when not less than 95 per cent. of the holders of the net irrigable area of the block have

signed the application. In particular cases should it be desirable to grant a lease even though an area larger than 5 per cent. of the block has not been signed for, this may be done on the written order of the Superintending Engineer. The reason for granting the lease shall be fully recorded.

11. Covering Vesses.—Applicants for a lease for a term of years who may require water before the lease has been concluded can obtain a supply on tendering an application for a covering lease in the form given in Appendix No. II to these rules. This application shall be signed in the presence of the Zilladar or some other responsible officer nominated for the purpose by the Subdivisional Canal Officer. The signatures of the leading cultivators in the block in question shall be obtained and they shall represent holders of not less than 75 per cent. of the irrigable land within the block.

As soon as the Subdivisional Canal Officer receives the application duly signed, he shall issue a permit in the form given in Appendix No. IV to these rules, and shall at once supply water.

12. **Kharif season leases.**—If a lease for which an application has been filed for a term of years is not concluded for any reasons and water has been supplied under a covering permit, the lease shall be treated as a kharif season lease and water rates charged in accordance with item 2 of the schedule of rates.

Kharif season leases may be granted within the areas set apart for long leases but holders of kharif season leases will not be entitled to water until the demands of the long-leased area have been met or there is surplus water. The rates to be paid will be in accordance with item 2 of the schedule of rates. These leases will expire on the 31st of October each year. Applications for kharif season leases may be presented to the Subdivisional Canal Officer or to the Sectional Officer. They must be in the form given in Appendix V to these rules. The permit for the supply of water in the form given in Appendix VI to these rules will be granted by the Subdivisional Canal Officer.

13. Single watering leases.—Applications for a single watering during the kharif season, may be entertained if water is available, after meeting the demand for the areas leased for a term of years. The applications may be presented at the Subdivisional Canal office or to the Sectional Officer. They must be in the form given in Appendix No. VII to these rules.

The application must be for a definite block and the signatures of the applicants must cover areas aggregating not less than four-fifths of the irrigable lands in the block.

If the Subdivisional Officer is able to supply water and accepts the application he will require the applicants to pay in advance one-half of the amount due on the areas entered in the application at the rate specified in the schedule of rates, and on this sum being paid he will at once issue a permit in the form given in Appendix No. VIII to these rules and will supply water. When the watering has been concluded the area actually irrigated shall be determined and the assessment shall be made on the areas actually watered within the limits of the block specified in the application and permit.

14. Rabi season leases.—Applications for water to irrigate spring rice or other crops excluding sugarcane between November and March inclusive, may be presented at the Subdivisional Canal office or to the

Sectional Officer. They must be in the form given in Appendix No. IX to these rules.

In the applications the areas for which water is required must be specified but the rate will be charged on those areas for which water is actually used as determined by measurement.

The permit in the form given in Appendix X to these rules will be granted by the Subdivisional Canal Officer if he is able to supply the water.

15. Sugarcane season leases.—Applications for water to irrigate sugarcane between the 1st November and the 31st March inclusive may be presented to the Subdivisional Canal Officer or to the Sectional Officer. They must be in the form given in Appendix XI to these rules.

In the applications the areas for which water is required must be specified but the rate will be charged on these areas for which water is actually used as determined by measurement. The permit in the form given in Appendix XII to these rules will be granted by the Subdivisional Canal Officer if he is able to supply the water.

16. Single waterings in the hot weather.—If water is available in the hot weather months it will be supplied in single waterings for the irrigation of any crop between 1st April and 14th June on the receipt of applications in form given in Appendix XIII to these rules: the Subdivisional Canal Officer will issue the permit in the form given in Appendix XIV to these rules.

17. Supply of water.—The Divisional Canal Officer shall control

the supply of water throughout the division in his charge.

No water shall be supplied to any lands except such as have been brought under a lease for a term of years or for the season, or to such as are provided for by a covering lease or by a lease for a single watering.

- 18. Under the forms of Irrigation lease in use, no specific supply of water is promised: but the undertaking is to give such a supply to each lessee as may be necessary for the lands leased. The supply shall be given, as may be required for the proper cultivation of the crops under irrigation, according to the exigencies of the season.
- 19. The Divisional Canal Officer will give the required supply by rotation in accordance with the sanctioned tatil table and map where such exists. He is required to give the lessees written notice informing them of the periods when they will be supplied with water. No alteration is permitted in the table of rotation without the written sanction of the Superintending Engineer.
- 20. Collection of water-rates.—The rates due for water supplied shall be collected by the Revenue Officer through his staff of Zilladars, Tahsildars and peons. All khatians or demand statements shall be signed by the Revenue Officer after scrutiny in his office.
- 21. At the time of preparation of the khatian in the Zillader's office, each person assessed shall be furnished with an extract from the assessment paper, showing the particulars of the charge against him. This extract shall be furnished in such form as may from time to time be approved for the purpose.
- 22. Each person on paying the sum due from him shall be given a receipt in the form prescribed for the purpose.

- 23. For the purposes of account, control over establishment and general administration, the Revenue Officer is in the position of an Executive Engineer in charge of a division, and is directly subordinate to the Superintending Engineer. In regard to any proceedings taken under the Bengal Public Demands Recovery Act, 1913, the Revenue Officer is subject to the control of the Collector of the district.
- 24. Unauthorised use of water and waste of water.—If it is necessary to take action under the provisions of sections 79 and 80 of the Act, proceedings shall be instituted only under the direct and special order of the Divisional Canal Officer. The primary record of the facts regarding the unauthorised use or the waste of water shall be made by the Subdivisional Canal Officer and his subordinates. The parties whom it is proposed to assess shall be informed in writing, and shall be called on to show cause why they should not be assessed. The record of their statements shall be made by the Divisional or by the Subdivisional Canal Officer. The Divisional Canal Officer shall consider the facts and statements recorded, and shall, in deciding the case, give his reasons for or against the assessment, both as regards the facts and as regards the law; and he shall determine the rate to he charged in accordance with the provision in the schedule of rates attached to these rules.
- 25. Should the Divisional Canal Officer decide on making an assessment, he shall have the assessment papers prepared by the Subdivisional Canal Officer and his staff. Each person assessed shall be furnished with a statement of the charge against him, and an abstract of the demand or khatian shall be sent to the Revenue Officer, who shall proceed to recover the sums assessed. The period of one month within which an appeal may be presented to the Collector under section 91 of the Bengal Irrigation Act, 1876 (hereinafter referred to as the Act) shall count from the date on which the order of the Divisional Canal Officer is received by the person assessed, which date shall be endorsed on the order.
- 26. No proceedings shall be instituted if the unauthorised use or the waste of water have occurred through the act or neglect of a Canal Officer or a subordinate employed on the canal.
- 27. Complaints and applications.—All complaints or applications with respect to the supply of water, defective drainage, and generally all matters relating to the administration of the canals, shall be received on presentation at either the Divisional or Subdivisional Canal offices. Complaints and applications received by a Divisional Canal Officer may be transferred to his Subdivisional Canal Officers for disposal at

his discretion.

Any such complaints or applications, if presented to the Revenue Officer or to his staff, shall be returned endorsed with instructions as to the proper office at which to present them. If received by post, they shall be at once forwarded to the Divisional or Subdivisional Canal Officer.

- 28. Complaints or applications with respect to corrections of the assessment, the actions of the amins in assessing and the actions of the Tahsildars and other staff employed in collection shall be received at the office of the Revenue Officer, or at the Zihadars' offices.
- 29. Receipts in the prescribed form shall be given at all offices for complaints or applications presented. The receipt of all complaints and applications shall be recorded in registers to be kept for that purpose.

30. The officer receiving the complaint or application shall either make a personal enquiry into the matter or he shall nominate in writing some responsible person to hold the enquiry.

31. The orders passed on all complaints or applications shall be in writing, and a copy of every-order shall be furnished to the complainant or applicant.

The copy of an order may be sent by registered post if this is con-

venient.

The period within which an appeal may be presented under section 91 of the Act shall be reckoned from the date on which the copy of the

order is received by the person.

32. When an appeal to the Collector is from the order of a Subdivisional Canal Officer, the records of the proceedings shall be obtained through the Divisional Canal Officer, who may endorse such remarks as he may think desirable, provided that he does not thereby detain the proceedings.

In all cases in which an appeal against an assessment is preferred to

the Collector, he may, if he thinks fit, direct that the collection of water-rates be suspended till the appeal is disposed of.

33. The Divisional Canal Officers is empowered to revise the pro-ceedings of his Subdivisional Canal Officers, and the Superintending Engineer is empowered to call for and to revise the proceedings of all officers under his control.

34. Remissions and alterations of demands.—Whenever the crop on any land entitled to a supply of water suffers material injury from an insufficient supply of water, or from any interruption in the supply of water, remission of the rate due on such crop shall be given by the Divisional Canal Officer, provided that the person claiming such remission shall have applied for it not less than 15 days before the reaping of the crop.

35. On the occasion of lands being brought under a lease for a term of years, the Divisional Canal Officer is empowered to remit the rates for the first season on those fields which from the nature of the cultivation then obtaining, or from other causes, have not in that season

derived any benefit from the supply of canal water.

Should the crop on lands under lease for a term of years suffer material injury from excess of water due to deficient drainage, the Divisional Canal Officer may grant remission of the rates due on such lands in whole or in part, provided that the person asking for remission shall have applied at least 15 days before the reaping of the crop.

37. Revisions of the assessment required in consequence of land under lease being left uncultivated or of land being appropriated for

purposes other than cultivation shall be made under the orders of

Divisional Canal Officer.

38. Revision of the assessment required in consequence of incorrect entries of the names of occupants of lands under lease or of incorrect entries of areas or amounts in the assessment papers, or required by changes in the occupation of lands shall be made under the orders of the Revenue Officer, provided that no change involving any increase or decrease in the total area under lease for a term of years shall be made without the concurrence of the Divisional Canal Officer.

39 Remissions of water-rates on account of injury to the crops

Remissions of water-rates on account of injury to the crops caused by inundation, blight, storms or any extraordinary cause or for any other reason will only be allowed under the special orders of the

Local Government.

- 40. Irrecoverable demands.—The Superintending Engineer is empowered to sanction the writing-off of those demands which are reported, after due enquiry by the Revenue Officer, as irrecoverable owing to the poverty of the defaulter or his successors in case of his death, or owing to the defaulter having absconded.
- 41. Cultivators' representatives.—Whenever the preliminary application for a lease for a term of years has been approved by the Divisional Canal Officer, the Revenue Officer shall, with the concurrence of the Subdivisional Canal Officer, select as representative of the cultivators a suitable person or persons who shall generally be acceptable to the cultivators and who shall each have a direct interest in the land for which the lease is excented.
- 42. The person or persons so selected shall be required to give assistance to the Canal Officers in respect of the following matters:—
 - (i) In the preparation of the applications for leases.
 - (ii) In the measurement of the irrigated lands.
 - (iii) In recording the names of the occupiers of the holdings.
 - (iv) In receiving demand statements and distributing to the cultivators the individual notices of assessment.
 - (v) In attending, when required, at enquiries into complaints.
 - (vi) In reporting to the Zilladars any changes in the occupancy of lands under lease.
 - (vii) In assisting the Tahsildar in collecting rates.
- 43. For such assistance the cultivators' representative or representatives shall be entitled to free irrigation of the lands in his or in their ewn occupation, which may lie within the boundaries of the leased area subject to a total limit of 3 per cent. of the area assessed. The Revenue Officer may disallow in whole or in part this free irrigation, and may recover the rates which would otherwise have been payable in whole or in part if the assistance specified in rule 42 has not been efficiently rendered. The reasons for such disallowance shall be recorded in writing.
- 44. The Revenue Officer shall maintain in his office a register containing a record of the names of all representatives and of the areas of free irrigation allowed to each.
- 45. Applicants for single waterings for season leases shall be required to nominate one of their number who must have a substantial interest in the land to be inrigated as their representative. The representative so nominated shall perform the same duties as stated in rule 42 and shall receive remuneration on the same scale as in rule 43.
- 46. Power to decline or cancel leases.—Should it he proved, after due enquiry, that the supply of water given to any leased area is habitually wasted or used for the irrigation of lauds not under lease, it shall be competent for the Superintending Engineer to direct that the lease shall be cancelled with effect from the 1st of June next following. The order to cancel n lease shall be passed before the 1st of April of the year in which it is to take effect.
- 47. The Superintending Engineer may give directions to the Divisional Canal Officer to decline applications for irrigation leases of lands in villages where there has been persistent difficulty in realizing the water-rates, until all arrears have been paid.

He may further suspend, or altogether cancel, any leases for a term of years, if on the 1st June of any year, water-rates to the extent of half the demand for one year are in arrears. Previous notice of intention to put this rule in force shall be given not later than the 15th April preceding.

- 48. Tanks may be filled with canal water without charge, wherever water can be made available without injury to the cultivation dependent on a canal under the following conditions:—
 - I. No tank shall be filled unless the water is to be used exclusively for domestic purposes or for watering cattle.
 - II. No tank shall be filled from which irrigation is practised.
 - III. No tank shall be filled which intercepts any line of drainage or is liable to overflow from the accumulation of water from natural causes.
 - IV. No tank shall be filled except on the written order of the Subdivisional Canal Officer issued on the written application of the persons concerned.
 - V. No tank shall be filled unless the channel used to convey water to it shall be shown to the satisfaction of the Subdivisional Canal Officer to be in a sound condition when the application is made.
 - VI. The privilege here accorded may, by the written order of the Subdivisional Canal Officer, be suspended for twelve months for the breach of any of the above rules.
- 49. Except when a public right of way exists, no person shall, without the permission expressed in writing of the Divisional or Subdivisional Canal Officer, pass himself or cause any animal or vehicle to pass, on or across any of the works, banks or channels of a canal or drainage work which is part of the canal system except by means of such bridges, fords and ferries as may have been provided for the purpose.

Any person who, after due warning, commits a breach of this rule may be proceeded against under section 93, clause (9) of the Act.

- 50. The use of any part of the banks or berms of any canal, drainage work which is part of the canal system, or flood embankment which is subject to the provisions of the Act, as a place for relieving the calls of nature is prohibited. Any person who after due warning commits a breach of this rule may be proceeded against under section 93, clause (9) of the Act.
- 51. When tanks which are used both for irrigation and domestic purposes are filled with canal water, a charge at the rate of rupes one will be made for each 10,000 cubic feet or part of 10,000 cubic feet of water supplied.

The Divisional Canal Officer may supply water for manufacturing or other purposes and charge for the same at the rate of Rs. 2 for each 10,000 cubic feet or part of 10,000 cubic feet of water supplied. The same charge will be made if water is taken into a tank without authority or used in an unauthorised manner.

. 52. No officer employed on the canals, unless especially exempted by the Governor in Council from the operation of this rule, shall have any interest in the distribution of water from any of the canals or purchase or bid for any Government property sold thereon either in his own name or in the name of another, or jointly, or in shares with others.

Schedule of rates for water supplied from the Damodar and Eden Canals.

(1) For long leases for the irrigation of any crop within the leased area between the 15th June and the 31st March—Rs. 3-8 per acre per year.

The rate is due in two equal instalments on the 1st of January and the 1st February of each year: Provided that when the sum payable by a lessee is less than Rs. 15, the whole amount shall be due on the 1st of January in each year.

In case of long leases issued for irrigation from the Eden Canal before the year 1933-34 the rate will continue to be Rs. 2-4 per acre per year until the expiry of the period of such leases.

(2) For long leases not completed and for kharif season leases from 15th June to 31st October—Rs. 4-8 per acre per season.

Supply given from date of covering or season lease to 31st October of that year. The rate is due as in the case of long leases item (1).

(3) Single waterings from 15th June to 31st October—Rs. 1-12 per acre per watering.

For water supplied as a single watering the rate is payable half in advance at the time of application and half on completion of the watering.

(4) Senson rabi leases from 1st November to 31st March excluding sugarcane—Rs. 4-8 per acre per season.

The rate is payable on the 1st May following.

(5) Season leases from 1st November to 31st March for sugarcane— Rs. 6 per acre per season.

The rate is payable or 1st May following.

(6) Season hot weather leases from 1st April to the 14th June per watering--Rs. 2-8 per acre per season.

The rate is payable half in advance at the time of application and half on completion of watering.

(7) For the unauthorised use of water-Up to Rs. 7-8 per acre.

For the unauthorised use of water or for the waste of water, such rate may be charged as determined by the Divisional Canal Officer under rule 24, subject to a maximum of Rs. 7-8 per acre. Such rate shall be due on presentation of the notice of assessment to the person assessed.

The rate for irrigation by lift, whether manual or by pump, under (1), (2), (3), (4), (5) and (6) will be half the rate for irrigation by flow.

DEPARTMENT OF ACRICULTURE, BENGAL.

Dacca, the 26th January 1933.

Final Forecast of the Sugarcane Crop of Bengal, 1932-33.

(Note.—On an average of the five years ending 1930-31, the area under sugarcane in Bengal has represented some 7.0 per cent. of the total area under sugarcane in British India.)

Character of the season.—As indicated in the second forecast, the weather was generally favourable during the early stages and also during the period of growth. Subsequently at the time of harvest also the condition was satisfactory except in the important district of Dinajpur where untimely rainfall in November caused some damage to the crop.

Acreage.—The total area planted is estimated at 233,200 acres this year as against 233,400 acres last year.

Outturn.—According to the estimates of the District Officers, the average outturn of the crop for the province works out at 94 per cent. of the normal this year as against 86 per cent. last year.

Taking 56-2/5 maunds as the normal yield of cone gur per acre, the gross outturn for the province is estimated at 454,200 tons this year as against 272,800 tons last year.

Other sources of gur.—The total quantity of gur likely to be obtained from date-palm juice and others is estimated at 102,900 tons this year as against 103,400 tons last year.

The quantity of gur for the province from all sources is thus estimated at 557,100 tons this year as against 376,200 tons last year.

DISTRICT REPORTS ON WEATHER AND CROPS. .

For the week ending on the 1st February 1933.

Summary.—During the week light and scattered showers fell over the greater part of the presidency. Preparatory tillage for jute and other autumn crops is progressing but more rain is needed for the operation. Cutting and pressing of sugarcane continue favourably. Prospects of standing crops are, on the whole, good. The average price of common rice for the province has fallen by about 0.60 per cent. as compared with that of the previous week:—

Calcutta, the 4th February 1933.

Resolution on the annual progress report on forest administration in the Presidency of Bengal for the year ending the 31st March 1932.

REVENUE DEPARTMENT.

Forests.

CALCUTTA, THE 4TH FEBRUARY 1933.

RESOLUTION-No. 1311 For.

Read-

The annual progress report on forest administration in the Presidency of Bengal, for the year ending the 31st March 1932.

Read also—

The reports of the previous three years and the Government resolutions thereon.

- Mr. E. O. Shebbeure was in charge of the Northern Circle except for one month during his absence on leave when Mr. A. K. Glasson held charge. Mr. J. H. Lyall was in charge of the Southern Circle throughout the year.
- 2. The foreward to the report depicts the state of affairs prevailing in the Forest Department during the year under report. Owing to the general depression and the fall in the demand for timber and forest produce, the Northern Circle ran at a loss of Rs. 91,196 and a deficit was narrowly averted by the Sonthern Circle making a profit of Rs. 1,25,212.
- 3. The scheme for the formation of ranges in the Sundarbans Forest Division has been given effect to and three motor launches out of the five motor hunches necessary for the five Ranges were completed during the year. The cost of maintaining the launches and flats at Sundarbans Division came to Rs. 58,132 as against Rs. 55,005 in the previous year. The Range scheme is an imperative necessity in order to prevent continual decline of revenue and gradual depletion of the Sundarbans Forests, which in the last normal year 1929-30, produced a gross revenue of no less than Rs. 8-98 lakhs out of a total of Rs. 30-52 lakhs for the whole of Bengal. The financial situation and the great fall in forest income, however, have unfortunately prevented expenditure on many other profitable schemes.
- 4. Area.—The area of reserved forests increased from 6,506 to 6,561 square miles. The increase was in the Chittagong and Cox's Bazar Divisions. The area of protected and unclassed forests remained unaltered. The total area of forests thus increased from 19,624 to 10,679 square miles or 13.90 per cent, of the total area of the Presidency.

In the Northern Circle no new reservations were made during the year. In the Southern Circle the areas finally settled were 36 square miles in addition to 19 square miles declared in the previous year. During the year demarcation of 141 miles of exterior boundaries of new reserves in the Chittagong and Cox's Bazar Divisions was completed at a cost of Rs. 6,646. The topographical survey of the Tripura State undertaken by the Survey of India to settle the dispute with that State about the boundary of the Maini Head Water Reserve in the Chittagong Hill Tracts is expected to be carried out in 1932-33.

The Survey of India did not survey any forest areas during the year. The preparation of 4" photographic enlargements of forest maps in Northern Bengal was in progress.

Only Rs. 6,000 was spent on construction of roads and bridges against Rs. 12,000 in the previous year. The total expenditure incurred on the construction of new buildings was Rs. 34,910 against Rs. 25,636 in the previous year. The cost of repairs to buildings was Rs. 46,200 against Rs. 43,160 in 1930-31.

- 5. Working plans.—The revised working plans for the Darjeeling and Buxa Divisions were sanctioned during the year. The working plan for the Kurseong Division is ready for print. The revised working plan for the forests of the Sundarbans Division was sanctioned after the close of the year, but the prescriptions were brought into effect from the 1st April 1931. The prescriptions of the working plans were followed as far as circumstances permitted and all deviations were duly sanctioned.
- 6. Utilisation.—Departmental operations were carried on in the Kurseong, Julpaiguri and Buxa Divisions. In the Kurseong Division owing to heavy wind-falls caused by cyclone sal was extracted departmentally on a larger scale than usual. In the Jalpaiguri and Buxa Divisions departmental operations were reduced owing to the slump in the timber market and the decrease in the demand of railways for sleepers.

The sale of round sal timber at the Government Timber Depât at Siliguri decreased from 21,077 c, ft. to 20,789 c, ft, but the sale of sawn sal increased by about 8,000 c, ft., and in spite of considerable reductions in sale-prices the gross revenue collected on mill account increased by nearly Rs. 11,000. The trading account of the Siliguri Saw mill, however, showed a loss of Rs. 982 on the year's working. This result is due to writing down of stock and to defective and unsaleable logs supplied to the mill having been valued at the highest market rates for good selected timber.

- 7. In accordance with the terms of the supplementary agreement with the India Paper Plup Co., Ltd., the public were allowed to extract bamboos from the Kassalong Reserve in the Chittagong Hill Tracts Division. The royalty realised from them was was Rs. 18,445 or Rs. 8,445 more than the minimum royalty of Rs. 10,000 payable by the Company under the agreement.
- 8. Natural calamities.—For the second year in succession serious damage was caused by a cyclone in the Northern Circle. This year the Sevoke blocks of the Kurseong Division suffered. It was estimated that about four lakks of cubic feet of sal were blown down and that there was another lakh of cubic feet in the trees which were dying as the result of torn tap-roots.
- 9. Outturn, revenue and expenditure.—There was a further fall in the outturn of various kinds of forest produce. The revenue, expenditure and surplus during the year, compared with the previous year, are shown helow:—

Year.	Revenue.	Expenditure.	Surplus.	
	$\mathbf{Rs}.$	$\mathbf{R}\mathbf{s}.$	Rн.	
1930-31	 23,12,049	15,93,037	7,19,012	
1931-32	 16.94.479	16.60.534	33,945	

All divisions except Dacca-Mymensingh shared in the heavy decrease, which was mainly due to the economic distress and world-wide trade depression. The increase in expenditure is in the Southern Circle and is mainly due to the payment of 50 per cent. overhead charges for the repair of launches at the Government Dockyard, Nara-yanganj, and the construction of boats and dinghis and the purchase of launches for the Range scheme in the Sundarhans Division.

- 10. The total value of the sales of furest produce during the year amounted to Rs. 12,78,704 against Rs. 18,07,827 in the previous year, showing a decrease in sales of Rs. 5,29,123. The value of forest produce granted free of royalty was Rs. 60,721 against Rs. 55,317 of the previous year.
- 11. The total value of minor produce disposed of at scheduled rates amounted to Rs. 5,18,222 against Rs. 5,59,110 in the previous year.

Three rhinoceros horns weighing 279 tolas in all were sold for Rs. 3,139 during the year. The attempt to find a market for haritaki (Terminalia Chebula), amlaki (Albizzia stipulata), bahera (Terminalia balerica) and ritha (Sapindus emarginatus) has not been successful.

12. The total outstanding revenue at the close of the year was Rs. 2,53,255 against Rs. 3,11,051 in 1930-31. Although the Southern Circle showed much improvement, the outstandings in the Northern Circle increased owing to the slump in the timber market and the consequent difficulty of realising dues from purchasers.

13. The total number of elephants on the stock list in the two Circles at the close of the year was 25 including two calves. One elephant in the Southern Circle died during the year.

In the Northern Circle four persons were killed by tigers and one forest guard was severely wounded by a wild boar in the Buxa Division. In the Sundarbans Division of the Southern Circle, five persons were killed by tigers as compared with eight in the previous year. Three persons were killed by crocodiles. Rogue elephants killed five men and a tiger killed one in other divisions. Rupees 850 was paid as rewards for killing six tigers. Rupees 350 was also paid as rewards by the Collector of the 24-Parganas for killing four tigers outside the Sundarbans Forest Division. The number of permits issued for shooting deer in the Sundarbans Division was 43 against 161 in the previous year. Special measures were taken against Thinoceros poaching and an Act has been passed for protection of rhinoceros. Killing of deer by parties of tea-garden coolies armed with bows and arrows is reported from Julpaiguri Division.

- 14. The collection of tolls for fishing in the Sundarbans rivers in the district of Khulna was started from the 17th November 1931. The revenue collection of the Forest Department from this source amounted to Ps. 3,489 during the year.
- It. The Barkal revenue station in the Chittagong Hill Tracts Division was abolished from the 1st September 1931, as the Government of Assam have re-opened from the 1st June 1931 their revenue station at Baraharina for collection of revenue on forest produce removed from the Lushai Hills.

The thanks of the Governor in Council are due to Messrs. Shebbeare and Lyall for their successful administration of the forest circles and also to Mr. Glasson who officiated for a month as Conservator of Forests, Northern Circle. His Excellency in Council also notices with pleasure the record of good work done by other officers of the department mentioned in the report.

ORDER.—Ordered that the above resolution be published in the Calcutta Gazette.

Ordered also that a copy of the above resolution be forwarded to the Conservators of Forests, Nothern and Southern Circles, Bengal.

By order of the Governor in Council,

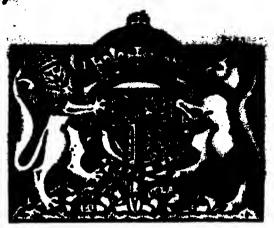

H. C. V. PHILPOT.

Secy. to the Government of Bengal.

Irrigation.

NOTIFICATION.

No. 2-I.—16th January 1933.—In supersession of notification No. No. 2-I.—16th January 1933.—In supersession of notification No. 178, dated the 22nd August 1898 (published at pages 909-911, Part 1 of the Calcutta Gazette of the 24th August 1898), as amended by subsequent notifications, the following draft of rules and schedule of rates, which, in exercise of the power conferred by sections 78 and 99 of the Bengal Irrigation Act, 1876 (Bengal Act 111 of 1876), the Governor in Cauncil intends to make, for the supply of water from the combined Damodur and Eden Canal (to be called the Damodar Canal), is bearby published for the information of the persons likely to be is hereby published for the information of the persons likely to be affected thereby.

2. The draft will be taken into consideration on or after the 20th February 1933 and any objections or suggestions received by the undersigned before that date will be duly considered:—

Draft rules and schedule of rates.

1. Lease for a term of years.—The country served by the Damodar and Eden Canals (hereafter called the Damodar Canal) shall be mapped out into blocks of convenient size in accordance with the features of the ground, natural or artificial. So far as may be practicable, the blocks shall be separated by drainage lines. This shall be done by the Subdivisional Canal Officers under the guidance and control of the Divisional Canal Officer.

2. Each block formed under rule 1 shall be numbered and recorded with its gross and irrigable areas in registers to be maintained by the Subdivisional Canal Officers. The blocks shall also be marked on maps

to be maintained by such officers.

3. Leases for not more than seven years may be granted for the whole irrigable area of a block or for a definite part of a block under the following conditions:

 Ordinarily the whole irrigable area of any village so far as situated within the block must be included in the lease. If the lands of a village within the block are divisible into two or more distinct parts which can be irrigated independently, a separate lense may be granted for each part.

All leases within one block shall be so granted that they shall

expire on the same date.

III. No lease shall be granted when the supply of water must of necessity be delivered across an unleased area, except where a channel exists, which, in the opinion of the Subdivisional Canal Officer, will deliver water without waste across the unleased area.

The Chief Engineer shall fix from time to time the gross aren for which, and the limits of the canal within which, leases for a term

of years may be granted.

5. Maps of all villages in which leases have been taken for a term of years, or in which there is any prospect of such leases being taken, shall be kept in the Subdivisional Canal offices. These maps shall he drawn to a scale 32'' = 1 mile when such are available, and elsewhere to a scale 16'' = 1 mile.

- 6. Applications for long leases for the irrigation of any crop between the 15th June and the 31st March must be filed by the 1st of September, after which applications for long leases will not be received. The preliminary application for a new lease for a term of years, or for the renewal of such lease, shall be made in writing but may be of an informal nature. It may be presented and shall be received either at the Subdivisional or Sectional Canal office; in the latter case the Sectional Officer shall forward it immediately to the Subdivisional Canal Officer. The Subdivisional Canal Officer, as soon as he has, by personal enquiry or by an enquiry made by the Sectional Officer, satisfied himself that the land in question constitutes a definite block or a definite part of a block and that it can be irrigated, shall at once inform the Divisional Canal Officer giving such particulars as that officer may direct, and shall ask his formal approval to the lease being proceeded with. On receipt of such approval the Subdivisional Canal Officer shall forward the preliminary application to the Zilladar, in order that the detailed assessment may be taken in hand. The lands in respect of which the lease is to be granted shall be indicated on a copy of the map referred to in rule 5.
- 7. The Zilladar on receipt of the application shall prepare the detailed assessment paper (khasra) of the land with the aid of the district settlement map, the record-of-rights and the plot index if available. If there is no settlement map of the area, an amin shall make a sketch nup and a khasra and shall measure the areas of the plots with a chain or measuring rod.
- 8. When the khasia is prepared the Zilladar shall forward it to the Subdivisional Canal Officer for approval.
- 9. As soon as the khasra has been approved by the Subdivisional Canal Officer, he shall return it to the Zilladar endorsed with his signature in token of approval.

The Zilludar shall then prepare a khatian or abstract of the khasra, and shall have the form of application, given in Appendix No. I to these rules, filled up and signed or marked by each of the applicants, in the

presence of two witnesses.

When the application has been duly signed, the Zilladar shall send it to the Deputy Collector or other officer in charge of the revenue division hereafter called the Revenue Officer who after scrutiny will send it to the Divisional Canal Officer, by whom the permit or formal approval of the lease shall be signed and issued in the form given as Appendix No. III to these rules. The permit shall be made over to the representative of the cultivators by the Subdivisional Canal Officer by means of his Sectional Officer. The Divisional Canal Officer shall return the application to the Revenue Officer, with a copy of the permit for record.

10. If the cultivators of any block, with regard to which an application for a lease is being proposed, are not unanimous, and if some of them decline to sign the application the Zilladar shall report the matter to the Subdivisional Canal Officer. This officer shall hold a local enquiry, recording the statements of the persons who decline to sign and recording his personal opinion on the reasons given. He shall then send a report to the Divisional Canal Officer, who shall decide whether the lease may be accepted excluding the fields in the occupation of the persons who decline to sign, or whether the lease shall be declined. The Divisional Canal Officer is authorised to grant a lease when not less than 95 per cent. of the holders of the net irrigable area of the block have

signed the application. In particular cases should it be desirable to grant a lease even though an area larger than 5 per cent. of the block has not been signed for, this may be done on the written order of the Superintending Engineer. The reason for granting the lease shall be fully recorded.

11. Covering leases.—Applicants for a lease for a term of years who may require water before the lease has been concluded can obtain a supply on tendering an application for a covering lease in the form given in Appendix No. II to these rules. This application shall be signed in the presence of the Zilladar or some other responsible officer nominated for the purpose by the Subdivisional Canal Officer. The signatures of the leading cultivators in the block in question shall be obtained and they shall represent holders of not less than 75 per cent, of the irrigable land within the block.

As soon as the Subdivisional Canal Officer receives the application duly signed, he shall issue a permit in the form given in Appendix No. IV to these rules, and shall at once supply water.

12. **Kharif season leases.**—If a lease for which an application has been filed for a term of years is not concluded for any reasons and water has been supplied under a covering permit, the lease shall be treated as a kharif season lease and water rates charged in accordance with item 2 of the schedule of rates.

Kharif season leases may be granted within the areas set apart for long leases but bolders of kharif season leases will not be entitled to water until the demands of the long-leased area have been met or there is surplus water. The rates to be paid will be in accordance with item 2 of the schedule of rates. These leases will expire on the 31st of October each year. Applications for kharif season leases may be presented to the Subdivisional Canal Officer or to the Sectional Officer. They must be in the form given in Appendix V to these rules. The permit for the supply of water in the form given in Appendix VI to these rules will be granted by the Subdivisional Canal Officer.

13. Single watering leases.—Applications for a single watering during the kharif season, may be entertained if water is available, after meeting the demand for the areas leased for a term of vears. The applications may be presented at the Subdivisional Canal office or to the Sectional Officer. They must be in the form given in Appendix No. VII to these rules.

The application must be for a definite block and the signatures of the applicants must cover areas aggregating not less than four-fifths of the irrigable lands in the block.

If the Subdivisional Officer is able to supply water and accepts the application he will require the applicants to pay in advance one-half of the amount due on the areas entered in the application at the rate specified in the schedule of rates, and on this sum being paid he will at once issue a permit in the form given in Appendix No. VIII to these rules and will supply water. When the watering has been concluded the area octually irrigated shall be determined and the assessment shall be made on the areas actually watered within the limits of the block specified in the application and permit.

14. Rabi season leases.—Applications for water to irrigate spring rice or other crops excluding sugarcane between November and March inclusive, may be presented at the Subdivisional Canal office or to the

Sectional Officer. They must be in the form given in Appendix No. IX to these rules.

In the applications the areas for which water is required must be specified but the rate will be charged on those areas for which water is actually used as determined by measurement.

The permit in the form given in Appendix X to these rules will be granted by the Subdivisional Canal Officer if he is able to supply the water.

.15. Sugarcane season leases.—Applications for water to irrigate sugarcane between the 1st November and the 31st March inclusive may be presented to the Subdivisional Canal Officer or to the Sectional Officer. They must be in the form given in Appendix XI to these rules.

In the applications the areas for which water is required must be specified but the rate will be charged on these areas for which water is actually used as determined by measurement. The permit in the form given in Appendix XII to these rules will be granted by the Subdivisional Canal Officer if he is able to supply the water.

- 16. Single waterings in the hot weather.—If water is available in the hot weather months it will be supplied in single waterings for the irrigation of any crop between 1st April and 14th June on the receipt of applications in form given in Appendix XIII to these rules: the Subdivisional Canal Officer will issue the permit in the form given in Appendix XIV to these rules.
- 17. Supply of water.—The Divisional Canal Officer shall control the supply of water throughout the division in his charge.

No water shall be supplied to any lands except such as have been brought under a lease for a term of years or for the season, or to such as are provided for by a covering lease or by a lease for a single watering.

- 18. Under the forms of Irrigation lease in use, no specific supply of water is promised: but the undertaking is to give such a supply to each lessee as may be necessary for the lands leased. The supply shall be given, as may be required for the proper cultivation of the crops under irrigation, according to the exigencies of the season.
- 19. The Divisional Canal Officer will give the required supply by rotation in accordance with the sanctioned tatil table and map where such exists. He is required to give the lessees written notice informing them of the periods when they will be supplied with water. No alteration is permitted in the table of rotation without the written sanction of the Superintending Engineer.
- 20. Collection of water-rates.—The rates due for water supplied shall be collected by the Revenue Officer through his staff of Zilladars, Tahsildars and peons. All khatians or demand statements shall be signed by the Revenue Officer after scrutiny in his office.
- 21: At the time of preparation of the khatian in the Zilladar's office, each person assessed shall be furnished with an extract from the assessment paper, showing the particulars of the charge against him. This extract shall be furnished in such form as may from time to time be approved for the purpose.
- 22. Each person on paying the sum due from him shall be given a receipt in the form prescribed for the purpose.

- 23. For the purposes of account, control over establishment and general administration, the Revenue Officer is in the position of an Executive Engineer in charge of a division, and is directly subordinate to the Superintending Engineer. In regard to any proceedings taken under the Bengal Public Demands Recovery Act, 1913, the Revenue Officer is subject to the control of the Collector of the district.
- 24. Unauthorised use of water and waste of water.—If it is necessary to take action under the provisions of sections 79 and 80 of the Act, proceedings shall be instituted only under the direct and special order of the Divisional Canal Officer. The primary record of the facts regarding the unauthorised use or the waste of water shall be made by the Subdivisional Canal Officer and his subordinates. The parties whom it is proposed to assess shall be informed in writing, and shall be called on to show cause why they should not be assessed. The record of their statements shall be made by the Divisional or by the Subdivisional Canal Officer. The Divisional Canal Officer shall consider the facts and statements recorded, and shall, in deciding the case, give his reasons for or against the assessment, both as regards the facts and as regards the law; and he shall determine the rate to be charged in accordance with the provision in the schedule of rates attached to these rules.
- 25. Should the Divisional Canal Officer decide on making an assessment, he shall have the assessment papers prepared by the Subdivisional Canal Officer and his staff. Each person assessed shall be furnished with a statement of the charge against him, and an abstract of the demand or khatian shall be sent to the Revenue Officer, who shall proceed to recover the sums assessed. The period of one month within which an appeal may be presented to the Collector under section 91 of the Bengal Irrigation Act, 1876 (hereinafter referred to as the Act) shall count from the date on which the order of the Divisional Canal Officer is received by the person assessed, which date shall be endorsed on the order.
- 26. No proceedings shall be instituted if the unauthorised use or the waste of water have occurred through the act or neglect of a Canal Officer or a subordinate employed on the canal.
- 27. Complaints and applications.—All complaints or applications with respect to the supply of water, defective drainage, and generally all matters relating to the administration of the canals, shall be received on presentation at either the Divisional or Subdivisional Canal offices. Complaints and applications received by a Divisional Canal Officer

Complaints and applications received by a Divisional Canal Officer may be transferred to his Subdivisional Canal Officers for disposal at his discretion.

Any such complaints or applications, if presented to the Revenue Officer or to his staff, shall be returned endorsed with instructions as to the proper office at which to present them. If received by post, they shall be at once forwarded to the Divisional or Subdivisional Canal Officer.

- 28. Complaints or applications with respect to corrections of the assessment, the actions of the amins in assessing and the actions of the Tahsildars and other staff employed in collection shall be received at the office of the Revenue Officer, or at the Zilladars' offices.
- 29. Receipts in the prescribed form shall be given at all offices for complaints or applications presented. The receipt of all complaints and applications shall be recorded in registers to be kept for that purpose.

30. The officer receiving the complaint or application shall either make a personal enquiry into the matter or he shall nominate in writing some responsible person to hold the enquiry.

writing, and a copy of every order shall be furnished to the complainant or applicant.

The copy of an order may be sent by registered post if this is con-

venient.

The period within which an appeal may be presented under section 91 of the Act shall be reckoned from the date on which the copy of the

order is received by the person.

32. When an appeal to the Collector is from the order of a Subdivisional Canal Officer, the records of the proceedings shall be obtained through the Divisional Canal Officer, who may endorse such remarks as he may think desirable, provided that he does not thereby detain the proceedings.

In all cases in which an appeal against an assessment is preferred to the Collector, he may, if he thinks fit, direct that the collection of waterates be suspended till the appeal is disposed of.

33. The Divisional Canal Officer is empowered to revise the proceedings of his Subdivisional Canal Officers, and the Superintending Engineer is empowered to call for and to revise the proceedings of all officers under his control.

34. Remissions and alterations of demands.—Whenever the crop on any land entitled to a supply of water suffers material injury from an insufficient supply of water, or from any interruption in the supply of water, remission of the rate due on such crop shall be given by the Divisional Canal Officer, provided that the person claiming such remission shall have applied for it not less than 15 days before the reaping of the crop of the crop.

On the occasion of lands being brought under a lease for a term of years, the Divisional Canal Officer is empowered to remit the rates for the first season on those fields which from the nature of the cultivation then obtaining, or from other causes, have not in that season derived any benefit from the supply of canal water.

36. Should the crop on lands under lease for a term of years suffer material injury from excess of water due to deficient drainage, the Divisional Canal Officer may grant remission of the rates due on such lands in whole or in part, provided that the person asking for remission shall

have applied at least 15 days before the reaping of the crop.

37. Revisions of the assessment required in consequence of land under lease being left uncultivated or of land being appropriated for purposes other than cultivation shall be made under the orders of

Divisional Canal Officer.

38. Revision of the assessment required in consequence of incorrect entries of the names of occupants of lands under lease or of incorrect entries of areas or amounts in the assessment papers, or required by changes in the occupation of lands shall be made under the orders of the Revenue Officer, provided that no change involving any increase or decrease in the total area under lease for a term of years shall be made without the concurrence of the Divisional Canal Officer.

39. Remissions of water-rates on account of injury to the crops caused by inundation, blight, storms or any extraordinary cause or for any other reason will only be allowed under the special orders of the

Local Government.

- 40. Irrecoverable demands.—The Superintending Engineer is empowered to sanction the writing-off of those demands which are reported, after due enquiry by the Revenue Officer, as irrecoverable owing to the poverty of the defaulter or his successors in case of his death, or owing to the defaulter having absconded.
- 41. Cultivators' representatives.—Whenever the preliminary application for a lease for a term of years has been approved by the Divisional Canal Officer, the Revenue Officer shall, with the concurrence of the Subdivisional Canal Officer, select as representative of the cultivators a suitable person or persons who shall generally be acceptable to the cultivators and who shall each have a direct interest in the land for which the lease is executed.
- 42. The person or persons so selected shall be required to give assistance to the Canal Officers in respect of the following matters:—
 - (i) In the preparation of the applications for leases.
 - (ii) In the measurement of the irrigated lands.
 - (iii) In recording the names of the occupiers of the holdings.
 - (iv) In receiving demand statements and distributing to the cultivators the individual notices of assessment.
 - (v) In attending, when required, at enquiries into complaints.
 - (vi) In reporting to the Zilladars any changes, in the occupancy of lands under lease.
 - (vii) In assisting the Tahsildar in collecting rates.
- 43. For such assistance the cultivators' representative or representatives shall be entitled to free irrigation of the lands in his or in their own occupation, which may lie within the boundaries of the leased area subject to a total limit of 3 per cent. of the area assessed. The Revenue Officer may disallow in whole or in part this free irrigation, and may recover the rates which would otherwise have been physble in whole or in part if the assistance specified in rule 42 has not been efficiently rendered. The reasons for such disallowance shall be recorded in writing.
- 44. The Revenue Officer shall maintain in his office a register containing a record of the names of all representatives and of the areas of free irrigation allowed to each.
- 45. Applicants for single waterings for senson leases shall be required to nominate one of their number who must have a substantial interest in the land to be irrigated as their representative. The representative so nominated shall perform the same duties as stated in rule 42 and shall receive remuneration on the same scale as in rule 43.
- 46. Power to decline or cancel leases.—Should it be proved, after due enquiry, that the supply of water given to any leased area is habitually wasted or used for the irrigation of lands not under lease, it shall be competent for the Superintending Engineer to direct that the lease shall be cancelled with effect from the 1st of June next following. The order to cancel a lease shall be passed before the 1st of April of the year in which it is to take effect.
- 47. The Superintending Engineer may give directions to the Divisional Canal Officer to decline applications for irrigation leases of lands in villages where there has been persistent difficulty in realizing the water-rates, until all arrears have been paid.

He may further suspend, or altogether cancel, any leases for a term of years, if on the 1st June of any year, water-rates to the extent of half the demand for one year are in arrears. Previous notice of intention to put this rule in force shall be given not later than the 15th April preceding.

- 48. Tanks may be filled with canal water without charge, wherever water can be made available without injury to the cultivation dependent on a canal under the following conditions:—
 - 1. No tank shall he filled unless the water is to be used exclusively for domestic purposes or for watering cattle.
 - II. No tank shall be filled from which irrigation is practised.
 - III. No tank shall be filled which intercepts any line of drainage or is liable to overflow from the accumulation of water from natural causes.
 - IV. No tank shall be filled except on the written order of the Subdivisional Canal Officer issued on the written application of the persons concerned.
 - V. No tank shall be filled unless the channel used to convey water to it shall be shown to the satisfaction of the Subdivisional Canal Officer to be in a sound condition when the application is made.
 - VI. The privilege here accorded may, by the written order of the Subdivisional Canal Officer, be suspended for twelve months for the breach of any of the above rules.
- 49. Except when a public right of way exists, no person shall, without the permission expressed in writing of the Divisional or Subdivisional Canal Officer, pass himself or cause any animal or vehicle to pass, on or across any of the works, banks or channels of a canal or drainage work which is part of the canal system except by means of such bridges, fords and ferries as may have been provided for the purpose.

Any person who, after due warning, commits a breach of this rule may be proceeded against under section 93, clause (9) of the Act.

- 50. The use of any part of the banks or berms of any canal, drainage work which is part of the canal system, or flood embankment which is subject to the provisions of the Act, as a place for relieving the calls of nature is prohibited. Any person who after due warning commits a breach of this rule may be proceeded against under section 93, clause (9) of the Act.
- 51. When tanks which are used both for irrigation and domestic purposes are filled with canal water, a charge at the rate of rupee one will be made for each 10,000 cubic feet or part of 10,000 cubic feet of water supplied.

The Divisional Canal Officer may supply water for manufacturing or other purposes and charge for the same at the rate of Rs. 2 for each 10,000 cubic feet or part of 10,000 cubic feet of water supplied. The same charge will be made if water is taken into a tank without authority or used in an unauthorised manner.

52. No officer employed on the canals, unless especially exempted by the Governor in Council from the operation of this rule, shall have any interest in the distribution of water from any of the canals or purchase or bid for any Government property sold thereon either in his own name or in the name of another, or jointly, or in shares with others.

Schedule of rates for water supplied from the Damodar and Eden Canals.

(1) For long leases for the irrigation of any crop within the leased area between the 15th June and the 31st March—Rs. 3-8 per acre per year.

The rate is due in two equal instalments on the 1st of January and the 1st February of each year: Provided that when the sum payable by a lessee is less than Rs. 15, the whole amount shall be due on the 1st of January in each year.

In case of long leases issued for irrigation from the Eden Canal before the year 1933-34 the rate will continue to be Rs. 2-4 per acre per year until the expiry of the period of such leases.

(2) For long leases not completed and for kharif season leases from 15th June to 31st October—Rs. 4-8 per acre per season.

Supply given from date of covering or season lease to 31st October of that year. The rate is due as in the case of long leases item (1).

(3) Single waterings from 15th June to 31st October—Rs. 1-12 per acre per watering.

For water supplied as a single watering the rate is payable half in advance at the time of application and half on completion of the watering.

(4) Season rabi leases from 1st November to 31st March excluding sugarcane—Rs. 4-8 per acre per season.

The rate is payable on the 1st May following.

(5) Season leases from 1st November to 31st March for sugarcane— Rs. 6 per acre per season.

The rate is payable on 1st May following.

(6) Season hot weather leases from 1st April to the 14th June per watering—Rs. 2-8 per acre per season.

The rate is payable half in advance at the time of application and half on completion of watering.

(7) For the unauthorised use of water---Up to Rs. 7-8 per acre.

For the unauthorised use of water or for the waste of water, such rate may be charged as determined by the Divisional Canal Officer under rule 24, subject to a maximum of Rs. 7-8 per acre. Such rate shall be due on presentation of the notice of assessment to the person assessed

The rate for irrigation by lift, whether manual or by pump, under (1), (2), (3), (4), (5) and (6) will be half the rate for irrigation by flow.

The 9th February 1933.

No. 4191G.—The following amendments to the Rules of the High Court, Appellate Side, 1922, having been made by the High Court of Judicature at Fort William in Bengal in the exercise of the powers vested in it by section 3 of the Destruction of Records Act, 1917, and approved by the Governor-General in Council, are published for general information:—

Cancel the Rules in Chapter XV of the Rules of the High Court, Appellate Side, 1922, and substitute therefor the following:—

In supersession of all previous rules made in this behalf, the following rules have been prescribed by the High Court under section 3 of Act V of 1917, with the approval of the Governor-General in Council, to take effect from the date of constitution of the High Court in 1862, and to apply to all cases instituted in and after that year:—

- 1. Every record, unless otherwise provided, shall consist of two parts, to be styled, respectively, Part I and Part II. These two parts shall be maintained separately in stiff covers in the prescribed form, the cover provided for Part I being coloured white and that for Part II being coloured blue (see pages 152 and 153 post).
- 2. Part I shall be preserved for ever, and Part II for three years, after the expiry of which it shall be destroyed.
- 3. The distribution of the papers to the appropriate parts (I or II) of the record shall in all cases be made in the office before the record is deposited in the record-room.
- 4. The period of three years mentioned in the preceding rule shall be calculated from

the date of the final decree or order which, in cases of appeal to the Privy Council, will be that of the decree or order of His Majesty in Council.

- 5. All copies of paper-books (both bound and unbound) in excess of the number to be preserved permanently in Part I of the High Court records, as directed in these rules, shall be kept separate from the records to which they relate and he destroyed on the expiry of the periods prescribed for their preservation as under:—
- (i) Bound copies: All surplus copies of these in civil appeals and death reference cases shall be preserved for three years from the date of the final decree or order of the High Court, or in cases appealed to the Privy Council, as many copies of the Privy Council paper-lank as may be available shall be preserved for three years from the date of the final decree or order of His Majesty in Council for sale or use in any subsequent appeal, or for any other purpose authorised by the Registrar during the period.
- (ii) Unbound copies: All such copies as may have been printed for use in the case of an appeal to the Privy Council shull be preserved for two years from the date of the final decree or order of the High Court.
- (iii) Destruction of the surplus copies of bound and unbound copies of paper-books shall, us provided in sub-rules (i) and (ii) of this rule, be duly undertaken without any reference to litigants or Advocates concerned, provided, however, that where such litigants apply to the Registrar through their Advocates for the return of such copies, they may be returned to such Advocates, provided that the application for return is made at least one calendar month before the expiry of the periods prescribed for their preservation. No notice to take back such copies will be issued from the High Court.

Civil records.

- 6. Part I of all civil records shall contain the following papers:—
 - (i) The order-hooks.
 - (ii) The memorandum of appeal.
- (iii) The copies of the judgment and decree filed with the memorandum of appeal and not inserted in the paper-book of the case.
- (iv) The memorandum of cross-objection (if any).
 - (v) Vakalatnamas.
- (vi) Applications for substitution, addition or removal of parties, and the affidavits filed therewith.
- (vii) Award of arbitrators or petitions of compromise, if given effect to in the decree also in the case of minors or lunatics, the order of the Court sanctioning the compromise.
 - (viii) Remand order of the Court, if any.
- (ix) Copy of the finding of the Lower Court upon remand, if any.

- (x) Final judgment of the High Court.
- (xi) Decree.
- (xii) Applications for the return of documents when they have been rejected or on which special orders have been passed.
- (xiii) Paper-books: two copies when printed, and one copy when not printed.
- (xiv) Any paper the preservation of which may be directed by the presiding Judge or Judges, or by the Registrar.
- (xv) Orders of the Court other than those recorded on the order-sheets.
- (xvi) Applications for review, and orders relating to such applications.

Part II shall contain all other papers.

Note (i).—Certified copies of the judgment and decree of the High Court filed with the applications for leave to appeal to the Privy Council shall be kept in Part II.

Note (ii).—Copies of the judgment and decree filed with the memorandum of appeal which, or the translation of which, have been inserted in the paper-book may, with the permission of the Registrar, be returned to the party after the disposal of the appeal.

Note (iii).—Sub-rule (xiii) above will not apply to cases instituted prior to 16th November 1920, i.e., the date when these rules came into force, the number of copies, if any, already with the record being deemed sufficient.

Note (iv).—"Exhibited documents or any other paper not received with the Lower Court's record but filed in the High Court under special orders should not be deposited in the record-room but returned to the parties after the disposal of the case in which they were filed. If they are not taken back before the despatch of Lower Court's record, they should be sent to the Lower Court along with its record together with a copy of the order under which such papers were filed and with instructions to that Court to return the same when returning other documents to the parties."

No. 41280? — The following amendments having been made by the High Court of Judicature at Fort William in Bengul in the Appellate Side Rules, 1922, are published for general information:—

(1) Add the following to Rule 10, Chapter 1, page 3:—

"Matters affecting all departments on the Appellate Side, and establishment questions in particular, shall be submitted to the Registrar through the Deputy Registrar."

(2) Substitute the words "Deputy Registrar" for the words "Assistant Registrar" and the word "Advocate" for the word "Vakil" wherever they occur in Chapter XI and the forms appended thereto.

The 10th February 1933.

No. 4409A.—Maulvi Muhammad Ghyasuddin, munsif of Dacen (Sudar), is vested with the powers of a Judge of a Court of Small Causes for the trial of suits cognizable by such a Court up to the value of Rs. 100 within the local limits of the Sadar munsifi of Dacea.

By order of the High Court, N. L. Hinney, Registrar.

Original Side.

Calcutta, the 9th February 1933.

With the sanction of the Governor-General in Council it is ordered by the High Court of Judicature at Fort William in Bengal under the provisions of section 112 of the Presidency Towns Insolvency Act, 1909, that for the present Rules Nos. 28 and 138A of the Calcutta Insolvency Rules, 1910, the following new Rules be substituted, viz.—

28. If within seven days from the making of an order of adjudication, order annulling

adjudication, order on application to approve a composition or scheme, order unnulling a composition or scheme, or order on application for discharge, the order hus not been completed, it shall (in those cases in which the insolvent is the proper party to complete such order) be the duty of the Registrar to report such failure to the Official Assignee, who shall thereupon investigate the reason of the failure of the insolvent to complete the said order, and if upon such investigation the Official Assignee is satisfied that the insolvent is by reason of poverty unable to pay the fees payable to the Court, the Official Assignee shall, if there are assets in his hands belonging to the estate, pay the amount required to the Registrar, who shall thereupon complete the said order. In the event of there being in-sufficient assets in the hands of the Official Assignee to meet the fees required, or a portion thereof, the Official Assignce shall give u certificate to that effect, and the Registrar shall, upon production of the suid certificate and the payment of the umount that can be met from the estate, direct that the order be completed, and the fees, or such portion thereof as may not be available, shall not be levied.

138.4. If the insolvent neglects to have the order for discharge drawn up, signed and filed within seven days (and the Official Assignee has refused to give the certificate mentioned in Rule 28) such order shall be vacated: provided that in the case of an insolvent appearing in person at the expiry of seven days notice shall be sent to him by the Registrar by registered post requiring him to have the order for discharge drawn up, signed and filed within twenty-one days from the date of such notice, and in default upon the expiry of such period the order shall be vacated.

And thut the following new Rules Nos. 28A and 28B be added after Rule 28 of the said Rules:—

28A. In all cases where any such order as is mentioned in the previous rule is obtained by parties other than the insolvent and the party obtaining the said order is represented by an Attorney, such Attorney will be held personally responsible to the Court for the payment of the necessary fees for completing the said order and of filing the same; provided that if in any case the Judge shall be of opinion that the provisions of this Rule ought not to apply he may so order, and in such case the order shall be completed by the Registrar without the fees myable in respect of the completion of the said order heing levied.

28B. Where an order of discharge is granted subject to the condition that judgment shall be entered against the insolvent nothing contained in Rule 28 shall require the Registrar to prepare and complete the said order until the insolvent has given consent in the prescribed form to judgment being entered against him.

The abovementioned alteration and amendments shall come into force as an and from 1st day of March 1933.

By order of the Full Court, ...
A. L. Coller, Registrar.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 8th February 1933.

summary.—During the week there was practically no rainfall excepting light and scattered showers in some West Bengal districts. Preparatory tillage for autumn crops and harvesting of sugarcane and spring crops are progressing favourably. The standing crops are in good condition. The average price of common rice for the province has fallen by about 0.61 per cent. as compared with that of the previous week:—

Dacca, the 10th February 1933.

Monthly Weather and Grop Report of Bengal for January 1933.

- I. Gharacter of the season.—During the month rainfall was above the average in most districts of West and North Bengal, while elsewhere it was below the normal. It has facilitated field operations generally. The usual rainfall statement is appended.
- II. Progress of agricultural operation.—Preparation of lands for paddy and jute in the low land tracts of East and North Bengal and transplantation of summer rice seedlings were progressing favourably. Harvesting of winter paddy was finished and threshing continued. Cutting and pressing of sugarcane were proceeding briskly. Harvesting of early spring crops was commenced.
- III. State of standing crops.—The standing crops were doing well.
- IV. Prospects and probable outturn.—The prospects of standing crops were reported to be good. The outturn of sugarcane was estimated at 94 per cent. and that of winter rice at 90 per cent. of the normal this year.

- V. Damage to standing crops.—No damage to standing crops was reported from any part of the province.
- VI. Condition of agricultural stock.—The condition of live-stock was fair, on the whole. Stray cases of cattle-disease, however, were reported from eight districts of the province and from the Cooch Behar and Tripura States.
- VII. Failure of pasturage and fodder.— The supply of fodder was reported to be sufficient throughout the province.
- VIII. Prices of food grains.—During the second fortnight of the month, the retail prices of common rice of the cheapest quality rose in five districts, fell in six and remained stationary in the rest of the Presidency. The prices ranged from 19½ seers per rupee at Dacca to 11½ seers per rupee in Darjeeling.
- 1X. Condition of agricultural population.—The condition of agricultural population is, on the whole, fair.

Calcutta, the 10th February 1933.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 10th February 1933.

Final Report on the Cotton Crops of Bengal, 1932-33.

(Noze.—On an average of the five years ending 1930-31, the area under the cotton crops in Bengal has represented some 0.2 per cent. of the total area under cotton in India.)

There are two crops, early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent in other districts. The "late" crop is grown is Bankura and Midnapore.

Character of the season.—Dry weather which prevailed since the third week of November was favourable for the harvesting of the early crop and a better outturn was reaped this year. The outturn of the late crop is expected to be generally satisfactory.

Area sown.—The total area sown with early cotton is returned at 74,590 acres as against 74,327 acres last year and that with late crop at 1,132 acres as against 1,103 acres last year.

Outturn.—The outturn of the early crop is estimated at 23,465 bales and the late crop at 337 bales as against 16,608 and 338 bales, respectively, last year.

Director of Agriculture, Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 8th February 1933.

Third and Final Report on the Winter Rice Crop of Bengal, 1932-33.

(Note.—On an average of the five years ending 1930-31, the area under winter rice in Bengal has represented some 17.4 per cent. of the total area under rice in British India.)

Character of the season.—The period covered by this forecast is that of the harvest during which weather conditions were generally favourable except in some North Bengal districts where heavy rain in December somewhat affected unharvested crops.

Acreage.—According to District Officers' estimates, the total area under winter rice is 15,590,000 acres as compared with 15,571,400 acres last year.

Outturn.—From the summary of the district returns appended, it will be seen that three districts, namely, Rangpur, Bogra and Faridpur report a normal crop, twenty-one districts a crop varying from 70 to 94 per cent, and three districts, viz., Nadia, Birbhum and Chittagong Hill Tracts below 70 per cent. of the normal.

According to the above estimates the provincial outturn works up to 84 per cent. of the normal as against 100 per cent. estimated by this department last year. In my opinion this is an under estimate and the provincial outturn will not fall short of 90 per cent. of the normal this year as estimated in the second forecast. Accepting 90 per cent. as the provincial outturn, the gross yield of the crop, on the basis of a normal yield of 134 maunds of clean grain per acre, is estimated at 6,958,200 tons this year as against 7,150,100 tons last year.

Director of Agriculture, Bengal.

LOCAL SELF-GOVERNMENT DEPARTMENT.

NOTIFICATIONS.

Minister-in-charge: The Hon'ble Mr. Bijoy Prasad Singh Roy.

Birbhum. — No. 1146L.S.-G.—16th February 1933.—In exercise of the power conferred by sub-section (1) of section 34 of the Bengal

Village Self-Government Act, 1919 (Bengal Act V of 1919), the Government of Bengal (Ministry of Local Self-Government) are pleased to extend the provision of the said section to the Bhromorkol union board in the district of Birbhum.

Jalpaiguri.—No. 1154L.S.-G.—16th February 1933.—The following draft of an order, which the Government of Bengal (Ministry of Local Self-Government) intends to make under section 38 of the Bengal Local Self-Government Act, 1885 (Bengal Act III of 1885), is published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on the 16th March 1933, and any objection or suggestion which may be received by the undersigned through the Deputy Commissioner of the district before that date will be duly considered:——

Draft order.

In exercise of the power conferred by section 38 of the Bengal Local Self-Government Act of 1885 (Bengal Act III of 1885), the Government of Bengal (Ministry of Local Self-Government) are pleased to constitute the following group of villages in thana Alipur Duar, in the district of Jalpaiguri, into a union:—

Name of district board with- in whose jurisdiction the union is constituted.	Тівна.	Name of union.	Number of members of which the union committee shall consist.	Names of villages which constitute the union with jurisdiction list number.
Jalpalguri	Allpur Duar.	Allpur Duar.	9	Damanpur(including the old and new civil stations of Alipur Duar) 52

2. In exercise of the power conferred by section 41 of the same Act, the Government of Bengal (Ministry of Local Self-Government) are pleased to direct that all the members of the said Alipur Duar union committee shall be appointed by the Commissioner of the Rajshahi Division for the following reasons:—

There has already been an election of six members to the defunct union board and the Commissioner will appoint these six individuals. Thus the principle of popular choice will be upheld and the people will be saved the expense and worry of a fresh election for the first term of the union committee. Three more members will be appointed by the Commissioner to give due representation to minorities.

3. This cancels notification No. 5809-L.S.-G., dated the 11th November 1932.

Examination in the Art of Teaching, Burdwan Division.

Chinsura, the 1st February 1933.

An examination in the Art and Practice of Teaching for teachers of English subjects in Boys' Secondary Schools (aided and unaided) will be held at the Hooghly Training School on Monday, the 24th April 1933, at 11 a.m., and on the following date, if necessary. The examination of teachers of vernacular subjects and oriental classical languages of the same schools will also be held on the same date and at the same place and hour.

- 2. The following teachers are eligible for the examination:—
- (a) Teachers of English subjects, who have passed (i) the Matriculation or some higher University Examination, or (ii) the Middle English Scholarship Examination or the terminal examination at the end of the middle stage of instruction. The examination of these teachers will be conducted in English.
- (b) Teachers of vernacular subjects, who have passed the same examinations, or the Middle Vernacular Scholarship Examination, or the terminal examination at the end of the middle stage of instruction. The examination of these teachers will be conducted in vernacular.
- (c) Pandits and Maulvis employed in teaching an oriental classical language other than Pandits in Sanskrit tols and Maulvis in Madrasahs. They must have passed the Sanskrit Title Examination or the Final Examination of a Senior Grade Madrasah. The examination in the case of these classes of teachers will be conducted either in English or vernacular at the option of the candidate.
 - 3. The examination will consist of—
- (a) A practical examination in class control, the candidate being required to keep a class of at least a dozen boys attentive and fully occupied throughout a lesson.
- (b) A practical test of teaching ability, the candidate being required to give two lessons on any two of the subjects—English, Bengali, Sanskrit, Arabic, Persian, Urdu, History, Geography, Arithmetic, Algebra, Geometry, etc.
- (c) An oral examination, in which the Inspector of Schools or other examiner will ask questions on the Art of Teaching, object lessons, class management, organisation and discipline.

- 4. The following books are recommended for study by the candidate:—
 - (a) For teachers of English subjects-
 - Indian Teachers' Guide, by P. Wren,
 Indian School Organisation, by P. Wren,
 Suggestions for the consideration of Teachers (Board of Education, Whitehall),
 Talks to Teachers (James),
 Art of Teaching,
 D. Salmon,
 Direct Method by Tate and Rajagopalchari.
 - (b) For teachers of vernacular subjects-
 - (1) বিবিধ বিধান, by A. N. Adhikari, (2)
 Teachers' Manual, by Khan Bahadur
 Ahsanullah, (3) পাঠটাকা লিখিবার পদ্ধতি,
 by Jagannath Dey, (4) মনোবিজ্ঞান, by
 S. C. Brahmachary, (5) ভূগোল শিকা
 প্রণালী, by I. Haque.
- (c) Teachers of oriental classical languages may study any of the above sets of hooks.
- 5. Intending candidates from High Schools should submit their applications through the Head Masters, and teachers of Middle Schools and Junior Madrasahs through the District Inspectors, so as to reach this office not later than the 10th April 1933. Every candidate will produce at the time of the examination the certificate of his having passed the University or other examination, which admits him to the present examination. The following information should accompany the application:—
 - (1) Name (in full).
 - (2) Name of father (in full).
 - (3) Names of native village and district.
 - (4) Last exumination passed.
 - (5) Year of massing.
 - (6) Period of service as a teacher.
- (7) Present appointment with date (mention whether he is a teacher of English subjects or vernacular subjects or of oriental languages).
- (8) Two class subjects in which he wishes to be examined.
- (9) Signature of applicant with full address.
- 6. Every candidate must bring with him at the time of examination two lesson notes on the subjects in which he wishes to give lessons. These notes should be made over to the examiner at the time of the practical examination.
- 7. Candidates should state whether they sat for the examination previously; if so, how often, giving dates.

DISTRICT REPORTS ON WEATHER AND GROSS.

For the week ending on the 15th February 1933.

Summary.—Excepting Chittagong Division rainfall was general almost throughout the province. Ploughing of fields for autumn crops and harvesting of spring crops are proceeding favourably. Prospects of summer ice, wheat and vegetables are reported to be satisfactory. The average price of common rice for the province is fallen by about 0.76 per cent. as compared with that of the previous week:—

Resolution on the Report of the Board of Revenue on the Land Revenue Administration of the Presidency for the year 1931-32.

REVENUE DEPARTMENT.

Land Revenue.

CALCUTTA, THE 16TH FEBRUARY 1933.

RESOLUTION—No. 1930L.R.

Read-

The Report of the Board of Revenue on the Land Revenue Administration of the Presidency for the year 1931-32.

Mr. F. A. Sachse. C.I.E., I.C.S., held the office of the Member, Board of Revenue, Bengal, during the whole year and made extensive tours throughout the province.

2. During the year under report the weather conditions were, on the whole, favourable and the outturn of crops satisfactory, but in July there was an unprecedented flood on the Brahmaputra and Jamuna which rose to record The areas chiefly affected were portions of Rangpur, Bogra, Pabna, Mymensingh, Faridpur, Dacca, and Rajshahi districts. Extensive damage was done to standing crops, cattle, houses and property of the people in the There were also minor affected areas. floods in some parts of Malda, of the Sadar and Kandi subdivisions in Murshidabad, and of the Feni subdivision Noakhali and in Jalpaiguri near Barnes Junction. Crops were also injured, either by drought, untimely rainfall or insect-pests in some places in Dinajpur, Murshidabad, Noakhali, Tippera and Rajshahi. Prompt and adequate measures were taken by Government, district boards and private organisations and individuals to relieve distress in the flooded areas. During year Government distributed the Rs. 12,95,885 in agricultural and land improvement loans and advanced Rs. 1,85,300 to the district boards for expenditure on test relief works and also expended Rs. 74,376 as gratuitous relief

mainly in the areas affected by foods. The Bengal Chamber of Commerce and the Statesman Relief Fund contributed Rs. 25,710 for relief in the districts affected by floods. The prices of agricultural produce were even lower than in the preceding year owing to general trade depression. This resulted in a general want of money, which was felt especially in the jute-growing districts, where the jute crop constituted in the past the main economic support of the peasantry. There was a fall in wages of both skilled and unskilled labour.

- 3. Public health was on the whole good; malaria, kala-azar, cholera and small-pox were present but did not generally assume serious proportions. Various schemes for the supply of good drinking water made satisfactory progress, and a large number of tube and masonry wells were sunk in many districts with the help of Government and district board grants, supplemented by local contributions. The anti-malarial societies, health associations and charitable dispensaries did very useful work in many districts.
- General economic conditions were far from satisfactory. The depression in the coal industry in Burdwan showed no signs of improvement. The jute mills in the districts of Hooghly, Howrah and the 24-Parganas fared fared badly, and they had to discharge more hands and reduce working hours. cotton mills, however, were comparatively successful. In some districts, mills did well. The adverse effect on the hand-loom industry of Santipur and other places of the boycott of foreign yarn continued. The depression in the tea industry in Darjeeling, Jalpaiguri and Chittagong continued. The experiment of cultivation by motor tractor and steel ploughs introduced last year Nadia was continued with good results. -The number of co-operative societies continued to increase in many districts.
- 5. The current demand of land revenue was Rs. 3,03,36,424, showing an increase of Rs. 1,60.388 over that of the previous year, and collections were 75.91 per cent. of the total and 90.86 per cent. of the current demand. Although the number of defaults increased considerably the sale law was administered with even greater moderation than in ordinary times owing to the bad economic conditions, which in many places were aggravated by the floods, and estates

were freely exempted from sale on payment of arrears with a nominal penalty. Thus there were only 1,177 sales including 136 cases of purchase by Government as against 19,920 defaults. It appears that the number of defaults is on the increase, but the actual sales are not abnormal. The position has been receiving the careful attention of the Board and Government.

- 6. There was a decrease in the cost of management of Government estates, the percentage of cost on the current demand being 8.90 against 9.55 in the previous year. A sum of Rs. 1,47,324 representing 2.37 per cent. of the current demand was spent on agricultural and miscellaneous improvements, while a sum of Rs. 87,197 or 1½ per cent. on collections from Government estates was made over to the district boards of the province for expenditure on roads and communications in or leading to Government estates.
- 7. Agricultural demonstrations were carried out in several districts with success. There were agricultural exhibitions and lectures on improved methods of agriculture at various centres. The third batch of five bhadralok youths on the completion of their training at the Faridpur Agricultural Farm were allotted lands and money, and a fresh batch is under training. In Noakhali, 1,360 acres of char lands were settled with cooperative societies of educated bhadralok youths.

The number of schools in Government estates increased from 4,454 to 4,642, but the pupils attending them decreased from 161,107 to 156,023.

8. Of the 178 square miles comprised in twenty-two villages in the Bakarganj Colonisation scheme which was in its 25th year, an area of 7 249 acres only remained to be colonised at the end of

- The colonisation of the 24the year. Parganas Sundarbans which was in its 17th year made fair progress. The total sum advanced by Government for reclamation in the 24-Parganas and Bakarganj Sundarbans and the total income derived from these areas up to the end οť the vear under report Rs. 26,29,223 and Rs. 33,13,829, respectively. Thus after paying its way the property has yielded a net profit of Rs. 6,84,606. In the year under report the actual gross collections amounted to Rs. 2,35,873 including Rs. 11,333 miscellaneous revenue, and when the property is fully developed it is estimated that it will produce an annual net income of Rs. 2.88,000 rising progressively to Rs. 3.08,000.
- 9. The general health of the people in the Bakarganj Sundarbans area was satisfactory, but their material condition showed no improvement. In the 24-Parganas Sundarbans the health of the colonists was generally good except in the third portion of the estate Saugor Island, where cholera broke out in an epidemic form causing several deaths.
- of the zamindars found themselves in danger of having their estates sold up for failure to pay their revenue. It is to the credit of both sides that both the landlords and tenants recognised each other's difficulties as being beyond their own control and that comparatively few cases of friction came to the surface.
- 11. Thanks of the Governor in Council are due to the Board of Revenue for the efficient administration of the branches of work under the Board.

By order of the Governor in Council,

RESOLUTION-No. 2096 Cin.

The Seventieth Annual Report of the Government Cinchona Plantations and Factory in Bengal for the year 1931-32.

The reports of the previous three years-

Mr. C. C. Calder held charge of the office of Superintendent until he went on leave on the 29th May 1931 and again from his return on the 29th November till the end of the year under review. Mr. G. E. Shaw, Quinologist to this Government acted as Superintendent during Mr. Calder's absence on leave.

2. In the report Mr. Calder has given an interesting account of the progress achieved during the last decade. The position as regards stocks is as follows:—

Although all the febrifuge which can be produced is being sold and although Government are supplying quinine sulphate powder to hospitals and other institutions at a rate much below the market price, the stocks of quinine sulphate powder continue to increase and large quantities of bark are becoming ripe for harvest every year. During recent times harvests have much exceeded the capacity of the factory and some years must elapse before equality in bark production and extraction is reached. Provincial stocks of dry bark awaiting process were 1,351,194 lbs. at the end of 1931-32 while the provincial reserve of quinine had reached the total of 108,815 lbs. Besides this, there are stocks of over 200,000 lbs. of quinine belonging to the Government of India, awaiting distribution in the Northern India area lying outside Bengal, Bihar and Orissa, and Assam. The problem of disposal of quinine stocks is therefore pressing, and it is desirable to realise a considerable part of the capital which is locked up in them. The problem of disposal of these stocks is by no means free from complications and difficulties and as the Government of India, have also a large accumulation of stock, it is obviously desirable that whatever steps be taken for the disposal or reduction of stock, should be taken in consultation with the Government of India. Another important factor is that Government have been following a policy of supplying the requirements of local bodies and hospitals at favourable rates. In a province where malaria is prevalent, such a policy is beneficial to the public and if local bodies, employers of labour on a large scale and organisations interested in the promotion of public health, co-operate with Government in increasing the consumption of quinine available for supply at favourable rates, with such safeguards as may be necessary to prevent profiteering, the stock will be more rapidly reduced with beneficial results to public health and the finances of the province.

It is hoped that progress will be made in achieving both results in the near future.

3. The total area under cinchona at the end of the year was 2,789 acres calculated as carrying a full complement of cinchona trees. Extensions comprising 194:5 acres were carried out during the year under review.

4. A harvest of 1,179,472 lbs. bark was collected during the year in both the Mungpoo and Munsong plantations, viz., 325,982 lbs. in Mungpoo mainly from thinnings, the uprooting of dead and dying trees and the coppicing of two old Ledger blocks and 853,490 lbs. in Munsong. In Mungpoo, cultivation was necessarily restricted during the year owing to the reduced budget provision as also on account of the large amount of nursery work but every effort was made to keep the young blocks as clean as possible and hoeing was freely carried out during the dry weather. In Munsong the storing of the bark stock presented a difficult problem as temporary erections had to be utilised which could not be considered safe from the risk of fire and damage to the bark by damp and leakage.

In addition to the heavy programme under cinchona an area of about 150 acres of old cinchona land was re-afforested with Birch, Alder and Japanese pines and a certain amount of Sal seed collected and sown direct on the drier ridges of Silake where it occurs naturally.

- 5. The quantity of Bengal bark harvested in the year of report was 1,179,472 lbs. as stated above against 1,476, 054 lbs. in the previous year.
- 6. Altogether 1,101,355.5 lbs. of dried bark were used in the factory during the year. Of this 1,072,255.5 lbs. represents Bengal bark and the rest belonging to the Government of India.
- 7. Bengal bark produced during the year 43,534 lbs. crude quinine sulphate and 13,079·3 lbs. cinchona febrifuge. From the purified stock of quinine sulphate in hand 13,920 lbs. were converted into 3,544·25 lbs. and 96,972 boxes of quinine sulphate tablets. Of the cinchona febrifuge powder 3,723 lbs. were converted into tablets. Other salts amounting to 765·88 lbs. were also produced.

From the Java bark 1,536 lbs. of quinine sulphate and 459 lbs. of cinchona febrifuge were extracted during the year. The cost of extraction of quinine sulphate was Rs. 2.721 per lbs. and that of cinchona febrifuge was Rs. 1.820 per lb. The total cost of the crude quinine sulphate including the cost in bark, viz., Rs. 4.5 per lb. was Rs. 7.221 per lb.

- 8. The gross receipts were Rs. 6,89,906-1-0 and after deducting Rs. 2,267-2-0 due to the Government of India, for excess extraction charge and sales of that Government's products, Rs. 34,925 due to the Jail Department for distribution charges and also Rs. 57,752-15 outstanding on 31st March 1932, on account of sales including the cost of manufacture of the Government of India products, the net receipts amounted to Rs. 5,94,961. The expenditure was higher by Rs. 31,042-15-9 and receipts were lower by Rs. 752 than in the previous year. The increase in expenditure is mainly due to charges on account of land settlement and leave of officers and the reduced receipts are due to the larger amount of outstanding which, however, are all good debts. The profit balance on the year's working as per profit and loss valuation statement amounted to Rs. 2,10,563-15-3, a result which although it compares unfavourably with the results of the preceding three years, is not unsatisfactory considering the depreciation in Munsong due to disease still largely beyond control and the increased expenditure mentioned above. It is satisfactory that receipts from sales showed an increase during the year.
- 9. The figures contained in the report indicate that satisfactory progress has been made by the Bengal Cinchona Department during the year under review. The Governor in Council is pleased to record his appreciation of the work Mr. Calder has done for the department during the year. Recognition of good work accomplished is also due to Mr. Shaw, the Quinologist, who retired on 4th March 1932, after long and meritorious service.

ORDER.—Ordered that this Resolution be published in the Calcutta Gazette and that a copy with a copy of the report be submitted to the Government of India.
